Through the co-operation of the reporting firms, it has now been possible to add a new series of monthly figures showing the sales in each province from Quebec westward and for the Maritime provinces combined. Provincial figures have been prepared for the year 1934 and will be issued monthly for the current year. While the lack of historical data makes it impossible to make detailed comparisons, it is believed that the provincial figures will reveal interesting regional differences in motor vehicle sales.

The figures for January 1934 and 1935 show that the bulk of the sales in this month is made in Ontario. This preponderance of purchasing, however, tends to grow somewhat less as the season advances, according to the figures available for 1934.

The shift of buying from one month to another in any year would affect year to year comparisons. This factor may influence the figures given below although the series is, at present, too short to make any accurate analysis.

NEW MOTOR VEHICLE SALES BY PROVINCES - FEBRUARY

The provincial figures for sales of motor vehicles show marked advances in each province over the figures for the same month in 1934. The value of motor vehicles sold in February was 119.0 per cent greater in Manitoba and 104.6 per cent greater in Quebec than in February, 1934. The increase was 80.5 per cent in the Maritime Provinces, 65.5 per cent in Ontario, 62.2 per cent in Alberta, 56.8 per cent in British Columbia, and 47.3 per cent in Saskatchewan. The relatively greater number of vehicles sold in some provinces than in others must, of course, be borne in mind when the provincial figures are compared.

New motor vehicle sales in Canada, as shown by the Dominion Bureau of Statistics for March, 1935, totalled 10,942 units, an increase of 29.5% over the same month last year. The value of these vehicles was \$10,872,740, an advance of 27.8% over the corresponding figure for 1934.

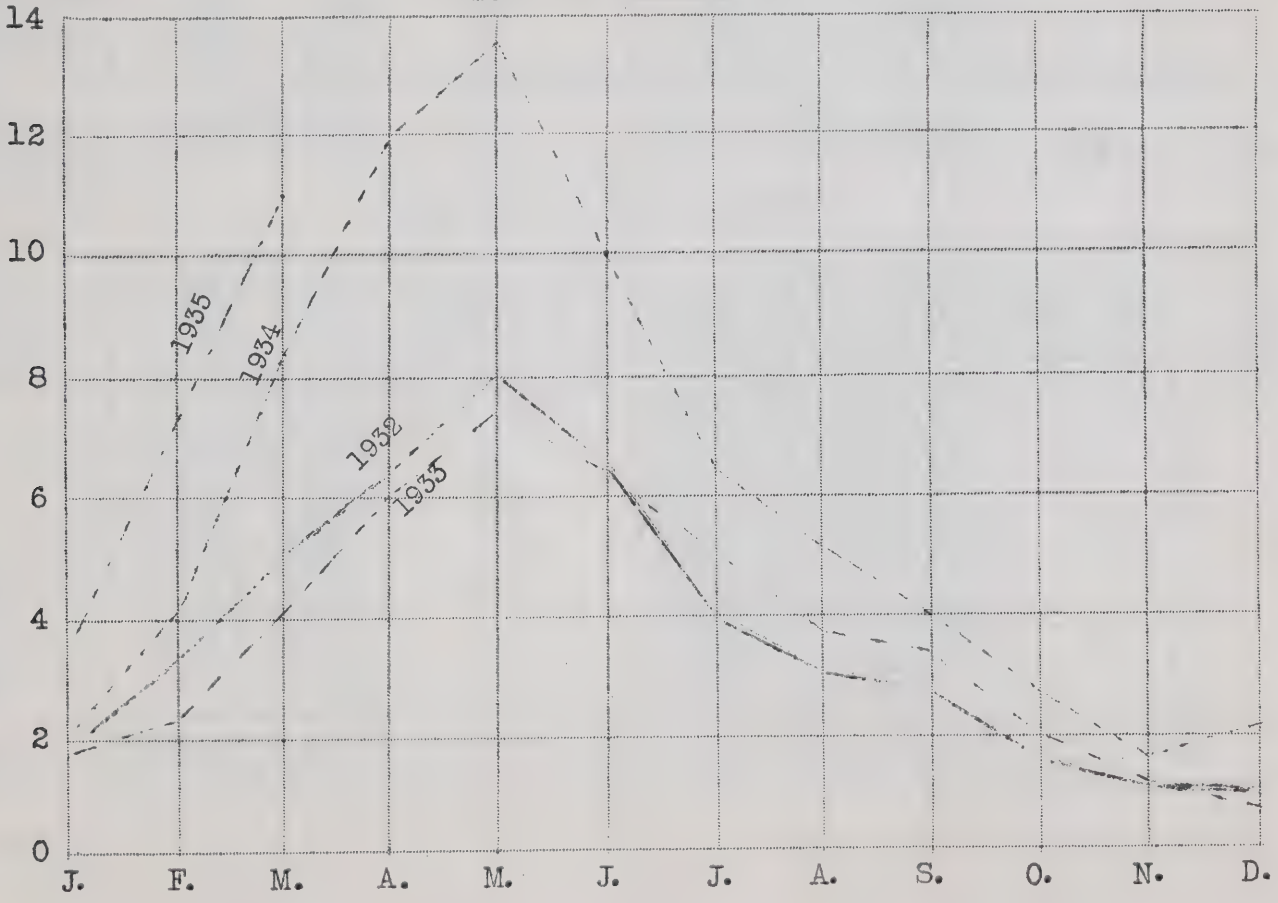

The cumulative total for the first three months of 1935 was 21,607 vehicles, an improvement of 45.6% over the 14,840 sold in the first quarter of 1934 and an increase of 159.6% over the 8,324 shown for the first quarter of 1933.

New passenger cars sold numbered 9,247 in March, 5,968 in February, and 7,580 in March, 1934. The corresponding retail values were \$9,290,251, \$5,992,255 and \$7,616,926. There were 1,695 trucks and buses sold for \$1,582,489 in March, 1,234 for \$1,241,871 in February, and 871 for \$891,412 in March, 1934.

The improvement for the first quarter was relatively greatest in the Maritimes where the number of passenger cars sold jumped 76.6%, but Manitoba followed closely with an increase of 68.6% in number of passenger cars sold. Ontario and Quebec provided the bulk of the unit increase, while Alberta and British Columbia showed considerable increases. In Ontario passenger car sales jumped from 8,023 in 1934 to 10,473 in 1935, while the total number of vehicles was 12,238 as against 8,947 in 1934.

NEW MOTOR VEHICLE SALES IN CANADA - MAY, 1935

The preliminary total of new motor vehicle sales in Canada in May, 1935, according to figures submitted to the Bureau by twenty-three companies, was 16,526 units, of which 13,832 were passenger cars and 2,694 were trucks and buses. This brings the five-month total to 56,100, a figure 10,768 greater than the number sold during the entire year 1933. The survey indicates that the four Western provinces show the greatest relative improvement over May, 1934, both in the monthly and the five-month totals.

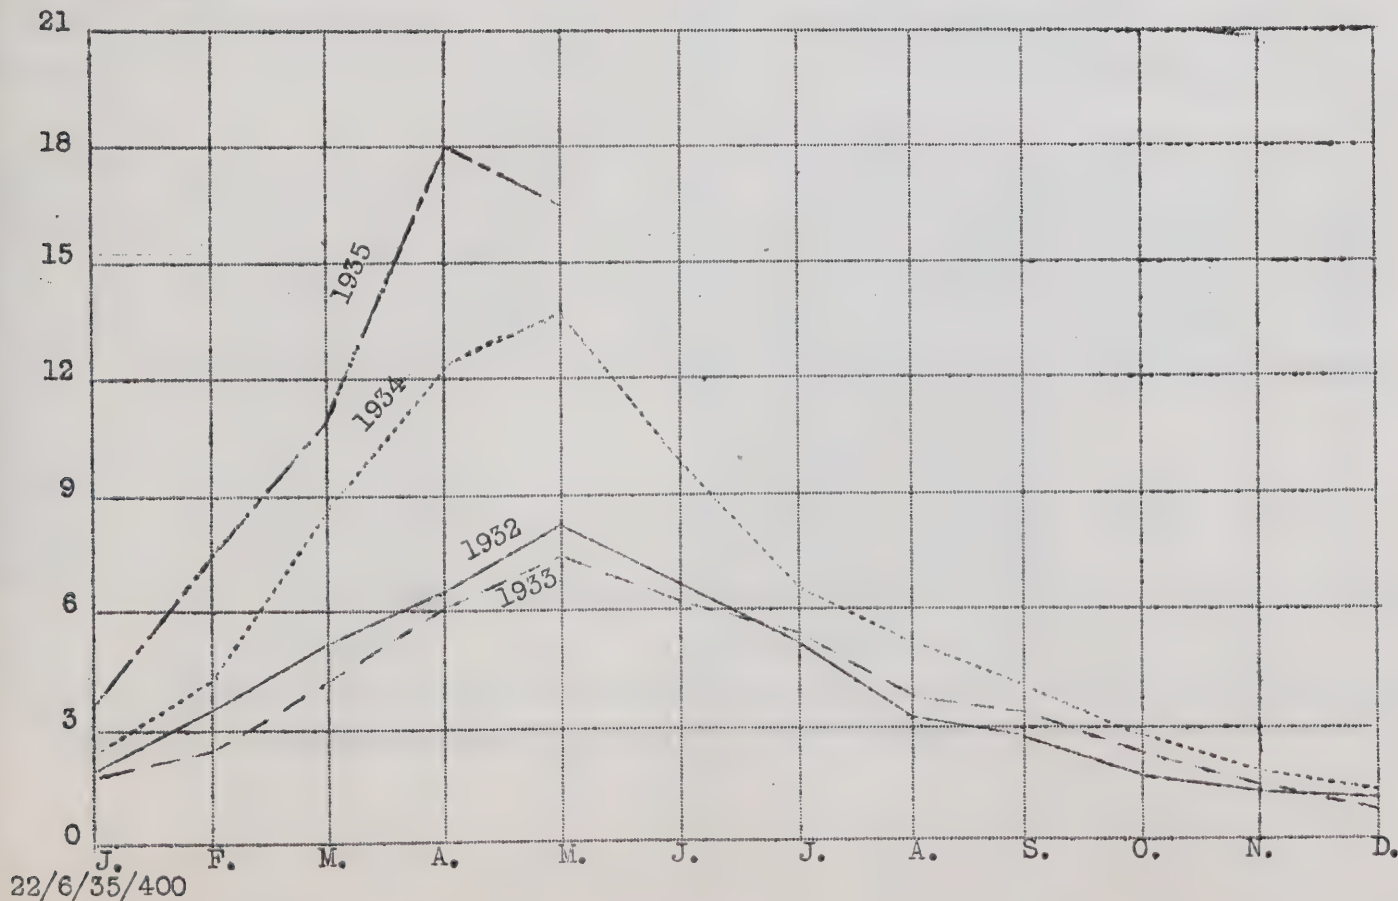

For the first time during the four years in which the retail sales of motor vehicles have been compiled, the Dominion total for May is smaller than the total for April. On the other hand, the increase in April of this year over March, 1935, was much larger than in any of the preceding three years.

Retail sales of new passenger cars in the first five months of 1935 were 47,127, an increase of 32 p.c. over the corresponding period in 1934, while the gain recorded in sales of trucks and buses was 75 p.c. for the same period. In May, 1935, Saskatchewan records a gain of 84 p.c. in new passenger car sales over May, 1934, while British Columbia, Manitoba and Alberta follow closely with increases of 52, 42 and 36 p.c., respectively.

Sales of new trucks and buses registered large increases over May of last year in the provinces of Saskatchewan, Manitoba and Alberta, while British Columbia, Ontario and the Maritimes also showed good increases.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations

$$\frac{dx}{dt} = f(x, y, z), \quad \frac{dy}{dt} = g(x, y, z), \quad \frac{dz}{dt} = h(x, y, z),$$

where f, g, h are continuous functions of x, y, z and satisfy certain conditions.

2. In the second part, we consider the case where the functions f, g, h are linear in x, y, z .

3. The third part is devoted to the study of the stability of the solutions of the system.

4. Finally, we consider the case where the functions f, g, h are periodic in t .

5. In the last part, we discuss the problem of the existence of periodic solutions of the system.

6. The paper concludes with a summary of the results obtained.

NEW MOTOR VEHICLE SALES IN CANADA - JULY, 1935

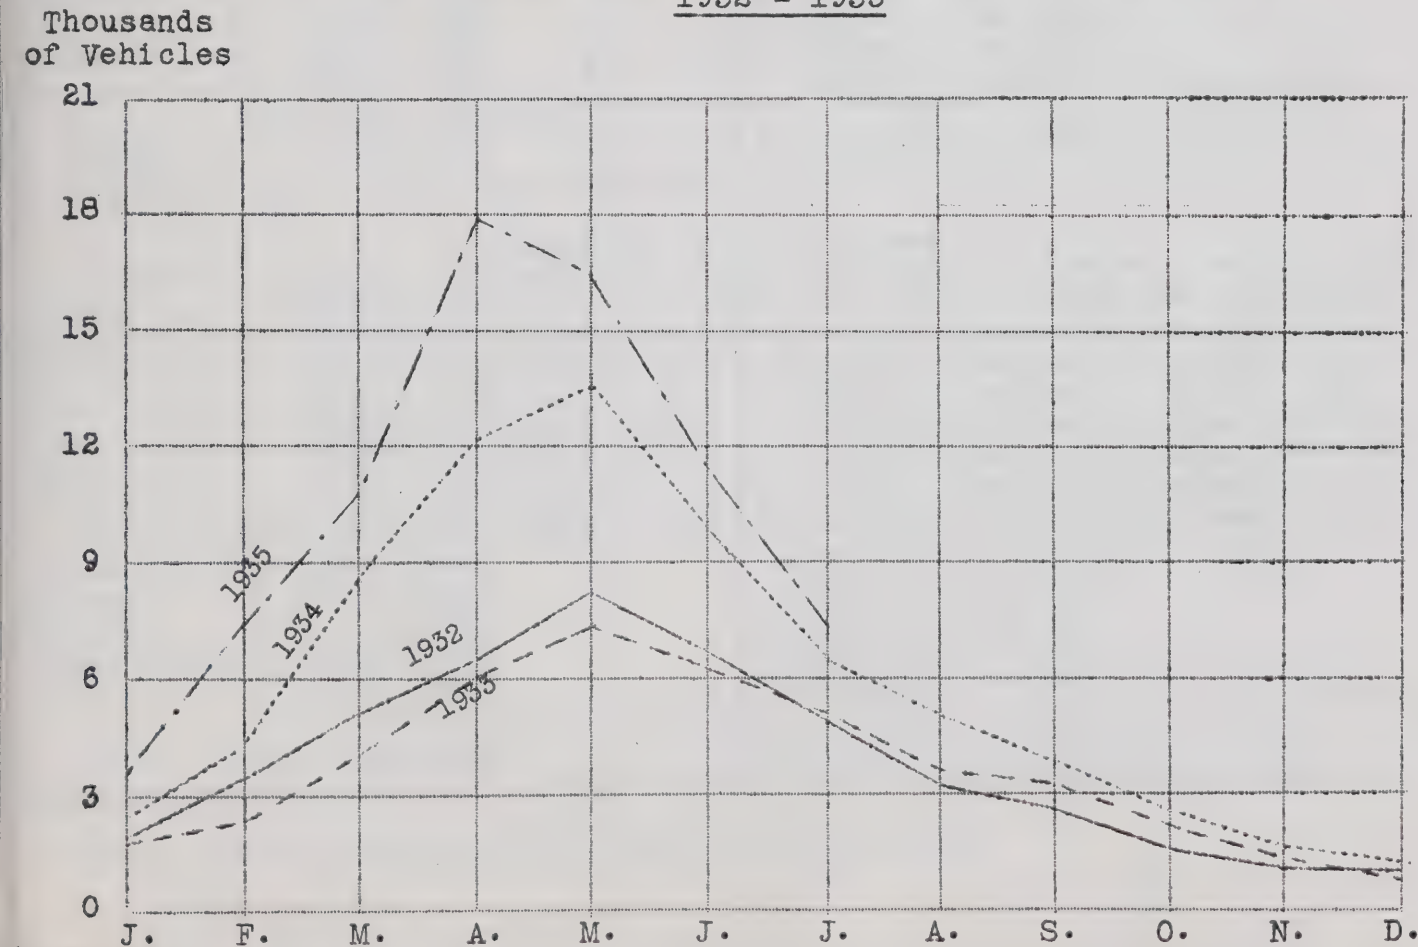

The preliminary total of new motor vehicles sold at retail in Canada in July, 1935, was 7,358 units, of which 6,249 were passenger cars and 1,109 were trucks and buses. This brings the seven-month total to 75,095 units, a higher figure than the number sold during the entire year 1934.

Of the 7,358 new vehicles sold in the Dominion in July, 46.4 p.c. went to Ontario, 17.4 p.c. to Quebec, 8.2 p.c. to the Maritimes, 7.9 p.c. to Alberta, 7.8 p.c. to British Columbia, 7.0 p.c. to Manitoba, and 5.3 p.c. to Saskatchewan.

Provincial sales of new passenger cars showed the following increases in July, 1935, over July of last year: Manitoba, 55 p.c.; Ontario, 17 p.c.; Alberta, 15 p.c.; Saskatchewan, 12 p.c.; and British Columbia, 3 p.c. In the Maritimes there was a decline of 16 p.c. All provinces, however, indicated a substantial gain in new car sales in the first seven months over the same period in 1934 with the largest increases being shown for the western provinces.

The improvement in the truck and bus field over July, 1934, was relatively greatest in Saskatchewan, followed by Manitoba, British Columbia and the Maritimes. A slight increase was evident in Alberta, while Quebec and Ontario showed decreases in sales. The cumulative totals of truck and bus sales for the first seven months of 1935 were 53.6 p.c. greater in number and 50.5 p.c. in value compared with figures for the same period in 1934.

NEW MOTOR VEHICLE SALES IN CANADA - AUGUST, 1935

The preliminary total of new motor vehicles sold at retail in Canada in August, 1935, was 5,353 units, as compared with 5,262 sold in August, 1934, and 3,908 in August, 1933.

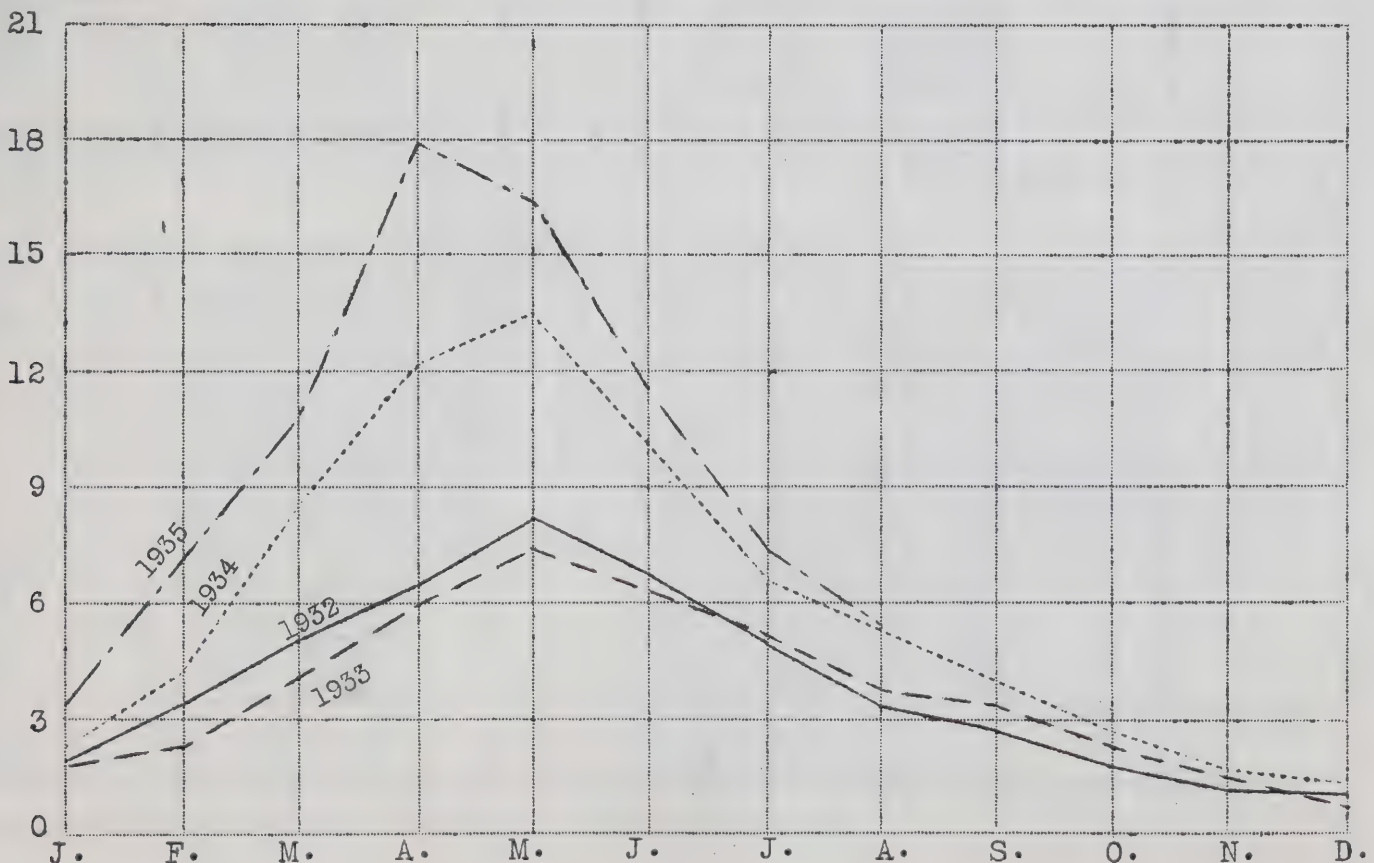

The cumulative total for the first eight months of 1935 was 80,448 vehicles, an increase of 28.2% over the 62,753 sold in the same period in 1934 and a gain of 114.5% as compared with the 37,507 sold in the first eight months of 1933.

For the first time since December, 1933, new passenger car sales dropped below the level of the corresponding month in the previous year. This year 3,941 new cars were sold as compared with 4,042 in August, 1934. On the other hand, the sale in the Dominion of 1,412 trucks and buses at \$1,433,291 represented an increase of 15.7% in number and 16.1% in retail value over the figures for August, 1934.

As compared with August, 1934, Saskatchewan showed the best relative improvement with an increase of 26.5% in new passenger car sales and 92.9% in the truck and bus field. The Maritime Provinces and British Columbia evidenced a drop in passenger car figures and recorded a substantial gain in number of trucks and buses sold. Ontario remained just above last year's level in number of both passenger cars and trucks and buses sold, while Quebec had a decrease of 9% in number of cars and an increase of 49% in number of trucks and buses. Alberta showed a decline in both lines.

NEW MOTOR VEHICLE SALES IN CANADA, SEPTEMBER, 1935

New motor vehicles sold in Canada in September totalled 3,987 units, compared with 4,010 in September last year and 3,441 in September, 1933. Sales by provinces, with corresponding figures for last year in brackets, were as follows: Maritimes, 363 (276); Quebec, 667 (618); Ontario, 1,746 (2,060); Manitoba, 225 (271); Saskatchewan, 283 (197); Alberta, 400 (314); and British Columbia, 303 (274).

The cumulative total of cars, trucks and buses sold in the first nine months of 1935 was 84,435, a gain of 26.5 per cent over the 66,763 for the same period in 1934 and more than twice the number of vehicles sold in the first nine months of 1933.

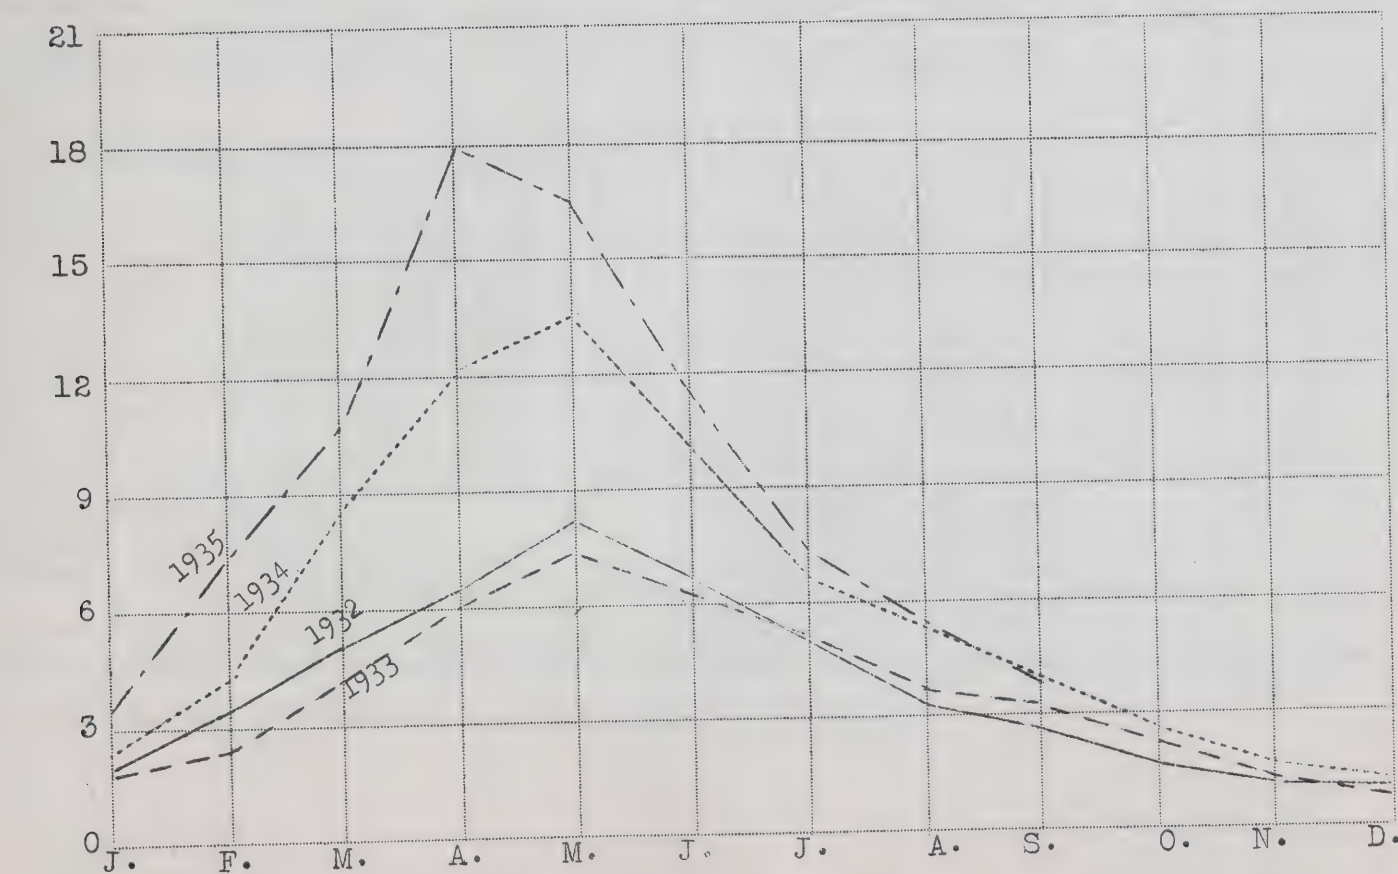

There was a slight drop in new passenger car sales in September as compared with the same month last year. New cars sold numbered 2,560 with a total retail value of \$2,789,818 or an average of \$1,090 per car. Provincial figures record a decline in this line for all provinces but two. Alberta and Saskatchewan show increases over September, 1934, in number of new cars sold, of 21.5 per cent and 12.4 per cent respectively.

Truck and bus sales continue to improve over 1934 figures, with 1,427 vehicles retailing at \$1,472,529 in September. The number of trucks and buses sold was greater than in September, 1934, by 50.1 per cent and also surpassed the number sold in either July or August of this year.

The nine-month total for trucks and buses was 14,952, an increase of 48.7 per cent over the 10,056 sold in the corresponding period last year and more than three times the number sold in the first nine months of 1933. Gains in September sales over the corresponding month last year were evident in all provinces with the exception of Manitoba.

NEW MOTOR VEHICLE SALES IN CANADA, OCTOBER, 1935

New motor vehicles sold in Canada in October totalled 3,911 units as compared with 2,702 in October last year and 2,102 in October, 1933. Sales by provinces, with corresponding figures for last year in brackets, were as follows: Maritimes, 334 (207); Quebec, 671 (378); Ontario, 1,792 (1,427); Manitoba, 186 (184); Saskatchewan, 237 (124); Alberta, 352 (200); and British Columbia, 339 (182).

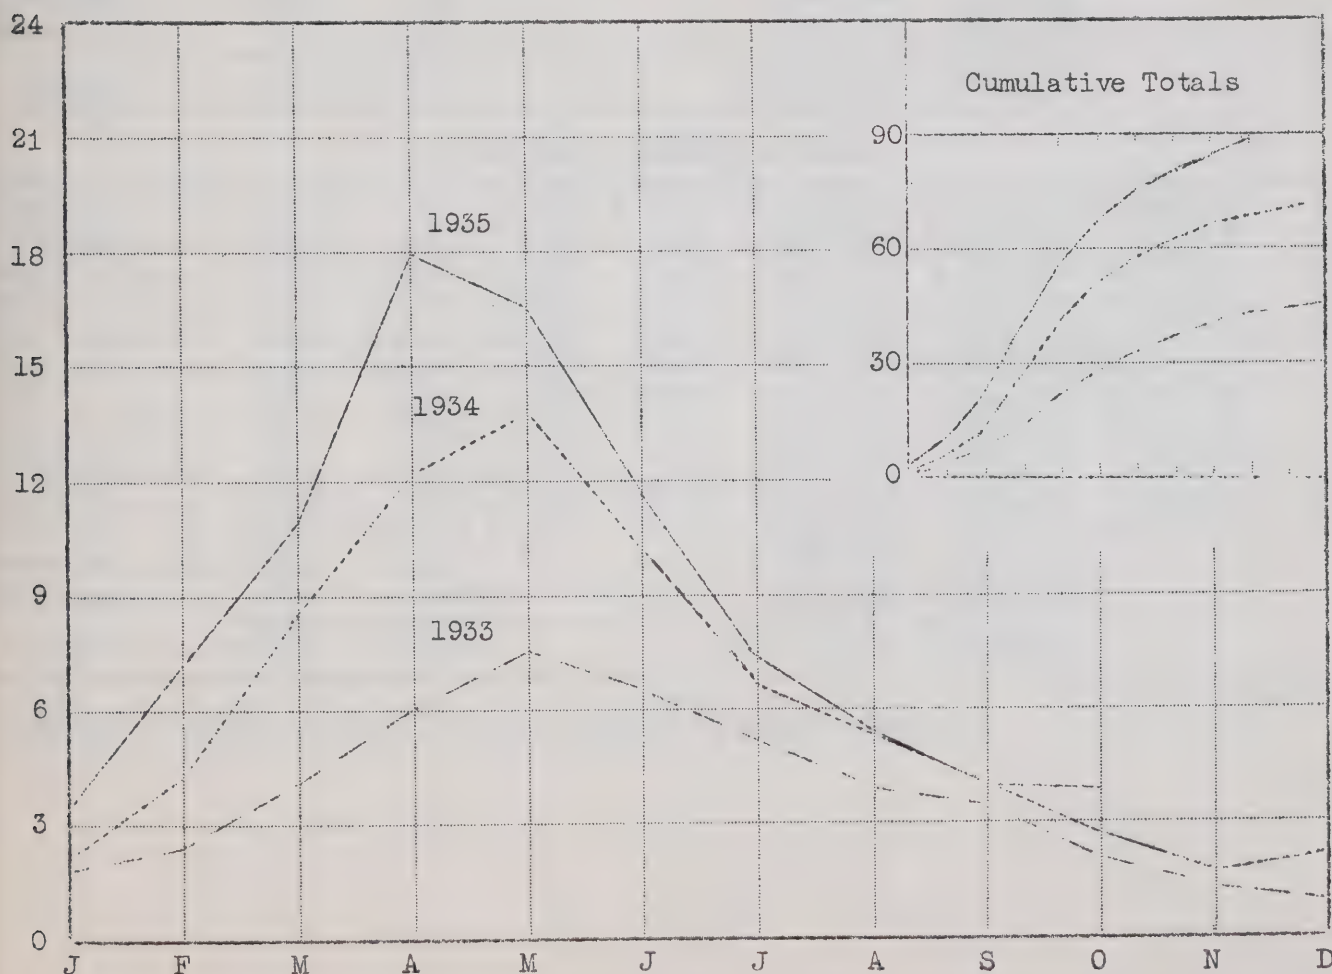

The cumulative total of cars, trucks and buses for the first ten months of 1935 was 88,346, a gain of 27.2 per cent over the 69,465 sold in the same period in 1934 and 105.2 per cent greater than the number of vehicles sold in the first ten months of 1933.

For the first time in the records of the Bureau, which extend back to 1932, October sales of passenger cars exceeded those of September. There were 2,939 cars sold for \$3,245,729 in October and 2,560 for \$2,789,818 in September. As compared with October, 1934, there was an increase of 47.5 per cent in number and 50.7 per cent in value of passenger cars sold. The largest gains were recorded in Saskatchewan, Alberta, Quebec and British Columbia, where increases over October, 1934, were 88 per cent, 82 per cent, 77 per cent and 74 per cent respectively.

The usual seasonal decline from the September level was evident in truck and bus sales, but these registered a gain of 36.9 per cent over October, 1934. There were 972 trucks and buses sold in October for \$944,288. An analysis of provincial figures for this group shows that the best relative improvement over October, 1934, was experienced in British Columbia, with Saskatchewan, Quebec and the Maritimes following closely.

NEW MOTOR VEHICLE SALES IN CANADA, NOVEMBER, 1935

There were 5,985 new motor vehicles sold in Canada for \$6.1 millions in November, 1935. Comparable figures for the same month in previous years follow: 1,711 for \$1.8 millions in 1934, 1,315 for \$1.4 millions in 1933, and 1,191 for \$1.2 millions in 1932. The gain in November over October of this year was 53 per cent in number and nearly 46 per cent on a value basis.

Cumulative figures for the first eleven months of 1935 show that 94,331 cars, trucks and buses sold for \$94.7 millions, an increase over the corresponding period in 1934 of 32.5 per cent in unit sales and 28.9 per cent in retail value.

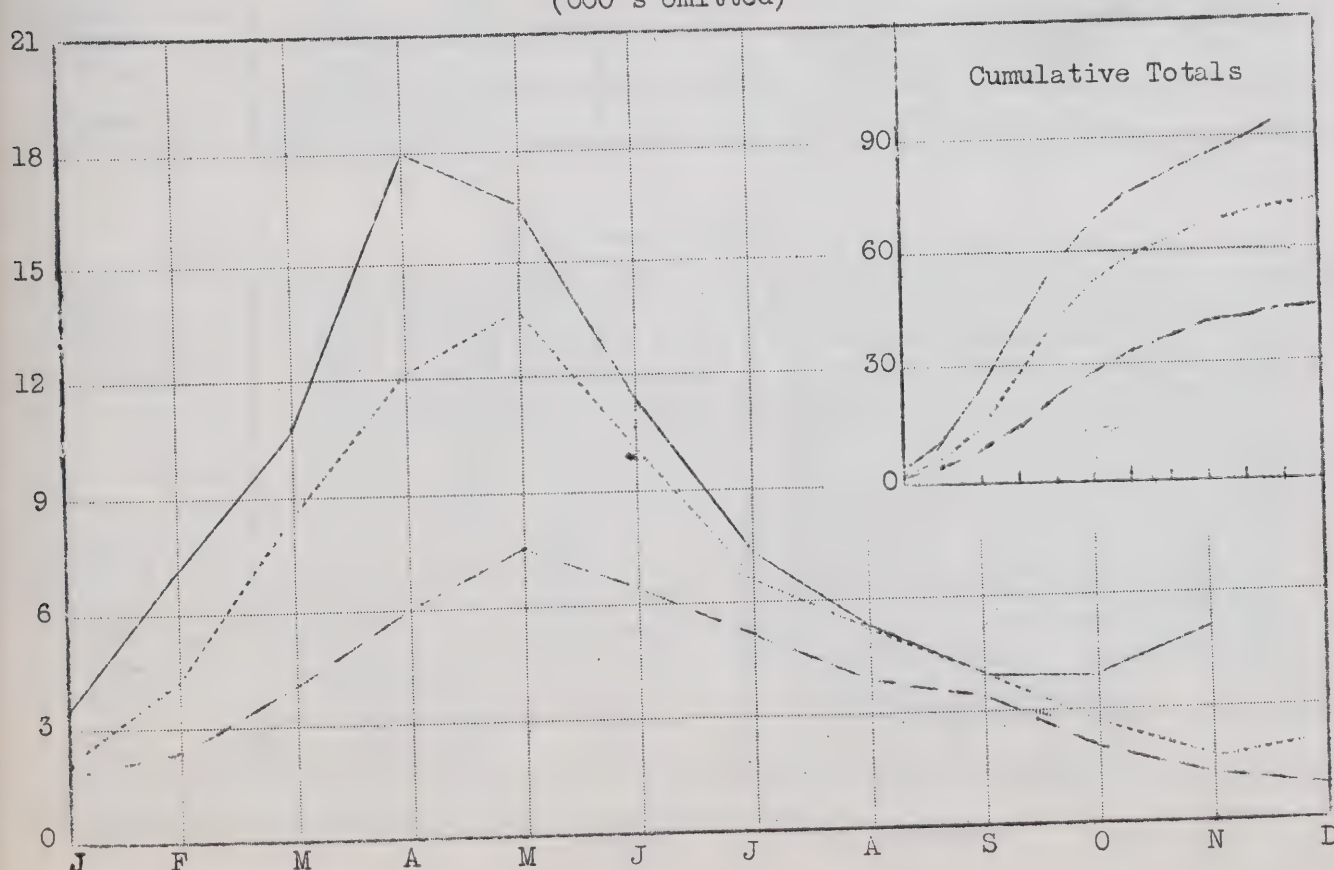

Sales of passenger cars, amounting to 86.5 per cent of total sales reported, recorded remarkable advances in all provinces over October, 1935, and also over November, 1934. There were 5,180 new cars sold in the Dominion for \$5.3 millions in November this year compared with 1,155 for \$1.2 millions in November, 1934. Sales of new cars by provinces, with corresponding figures for last year in brackets, were as follows: Maritimes, 317 (88); Quebec, 823 (171); Ontario, 2,890 (587); Manitoba, 222 (53); Saskatchewan, 169 (46); Alberta, 367 (110), and British Columbia, 392 (100).

The eleven-month total for new passenger cars shows that sales in 1935 improved in all provinces over the same period in 1934, the smallest increase being 7.1 per cent in the Maritimes and the largest, 48.0 per cent, in Saskatchewan.

Sales of trucks and buses in all provinces also increased over November, 1934, but there was the usual decline from October. There were 805 trucks and buses sold for \$796,299 in November as against 556 at \$587,612 in the same month last year.

Cumulative figures for January to November, 1935, show improvement over the same period in 1934 of 47.8 per cent in number and 44.6 per cent in value of commercial vehicles sold. The chief gains were made in Saskatchewan, British Columbia and Manitoba, where percentage increases in number of vehicles sold were 107.1 per cent, 67.7 per cent and 66.3 per cent respectively.

Sales of new motor vehicles in Canada numbered 6,072 in December, 1935, compared with 2,182 in December, 1934, and 967 in December, 1933. An increase is recorded over the 5,985 vehicles sold in November this year.

Preliminary figures for the calendar year 1935 show that 100,403 new motor vehicles were sold in the Dominion, of which 82,841 were passenger cars and 17,562 were trucks and buses. Passenger car sales show a gain over the 1934 totals of 34.7 per cent in number and 30.6 per cent in retail value, while the increase in truck and bus sales was still more marked, the gains over 1934 being 48.1 per cent in number and 44.1 per cent in retail value.

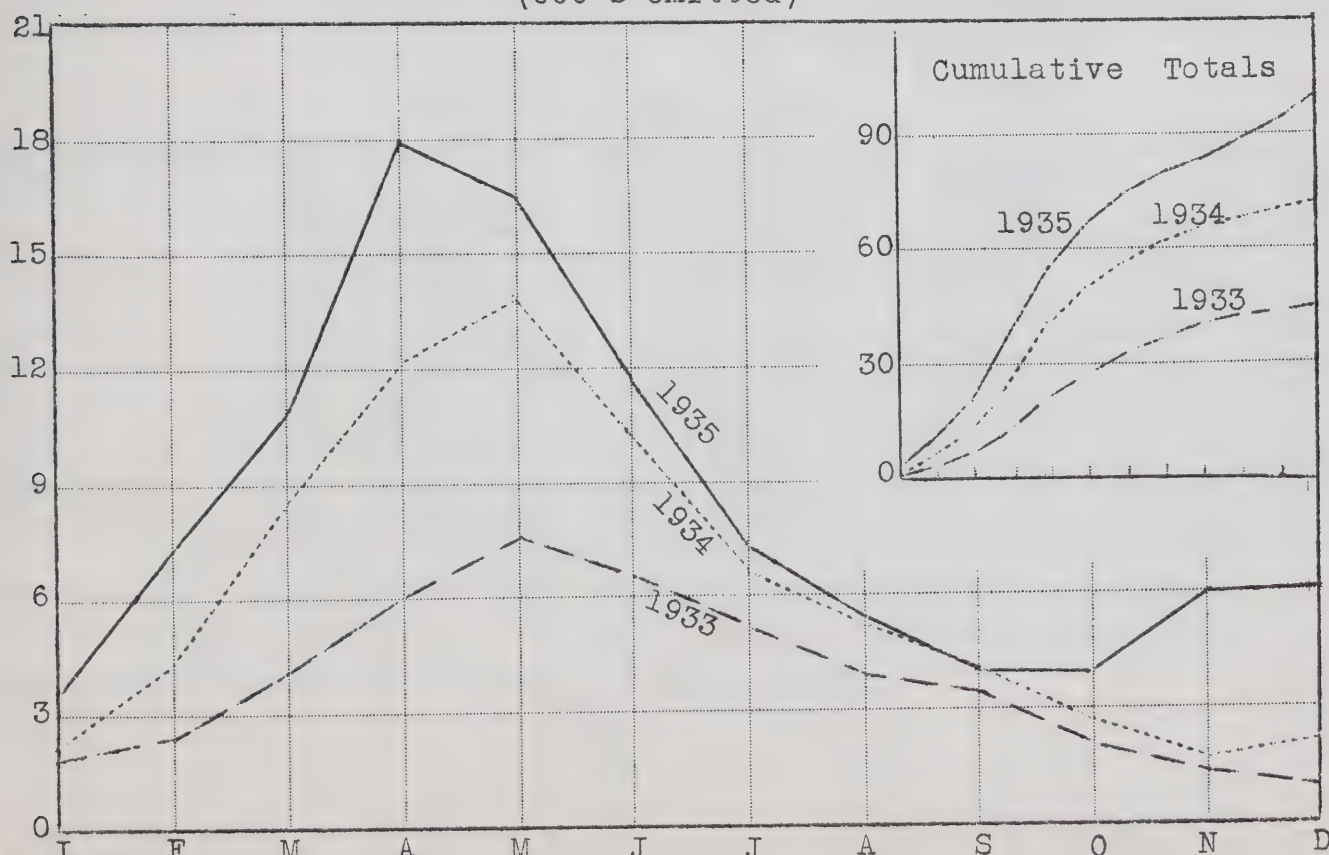

In December, 1935, passenger car sales again recorded remarkable advances in all provinces compared with the corresponding month in the previous year. The number of new cars sold in each province, with figures for December, 1934, in brackets, follows: Maritimes, 264 (150); Quebec, 829 (204); Ontario, 3,077 (884); Manitoba, 172 (72); Saskatchewan, 156 (65); Alberta, 307 (127); and British Columbia, 434 (147).

Annual totals for new passenger cars show gains in 1935 over 1934 in all provinces, the largest, 50.8 per cent, occurring in Saskatchewan and the smallest, 9.1 per cent, in the Maritimes.

Sales of trucks and buses numbered 833 in December, 1935, an increase over December, 1934, of 56.3 per cent. As compared with November, there is a gain in both number and value of trucks and buses sold.

In the cumulative figures for commercial vehicles Saskatchewan has the largest percentage increase in 1935 over 1934, while British Columbia, Manitoba, the Maritimes and Quebec follow closely.

NEW MOTOR VEHICLE SALES IN CANADA, FEBRUARY, 1936

New motor vehicles sold in Canada in February totalled 5,412 units, a decline of 2.4 per cent as compared with 5,544 sold in January and a drop of 25.2 per cent as compared with 7,231 sold in February of last year. The dollar value of February sales is placed at \$5,565,332, which is 0.8 per cent lower than the January total, \$5,612,266, and 23.3 per cent lower than the total for February, 1935, \$7,255,151.

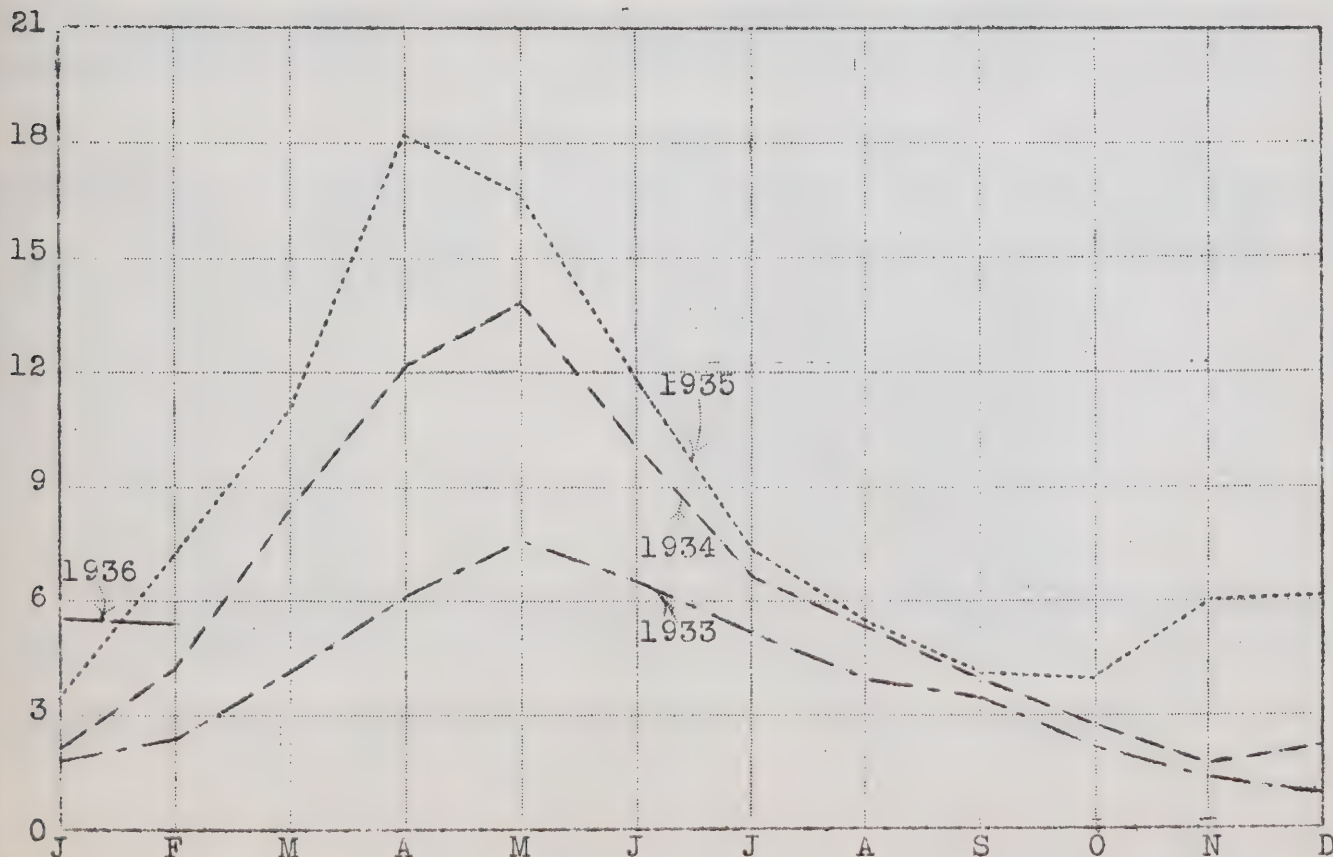

New car sales numbered 4,299 with a corresponding retail value of \$4,456,517. The drop of 28.1 per cent from February, 1935, in number of new cars sold was more than offset by the gain in January with the result that the number sold in the first two months of 1936, 9,029, was 2.2 per cent greater than the number sold in the corresponding period in 1935.

Analysis of February figures on the basis of provincial sales of new passenger cars shows that gains over February, 1935, were made in British Columbia and Quebec. The other provinces registered declines ranging from 48.3 per cent in Alberta to 11.8 per cent in the Maritimes. The number of new cars sold in each province in February, 1936, with figures for February, 1935, in brackets, are as follows: Maritimes, 239 (271); Quebec, 941 (894); Ontario, 2,038 (3,513); Manitoba, 146 (223); Saskatchewan, 97 (128); Alberta, 216 (418), and British Columbia, 622 (531).

There were 1,113 trucks and buses sold for \$1,108,815 in February, a gain over January of 36.7 per cent in number and 37.8 per cent in retail value. As compared with February, 1935, there was a drop of 11.2 per cent in number and 11.7 per cent in retail value. Cumulative figures for the first two months of 1936 show an increase over the corresponding period in 1935 of 3.2 per cent in number and a decrease of 1.2 per cent in retail value of trucks and buses sold.

Improvement over February, 1935, in number of trucks and buses sold was evident in the Maritimes and Saskatchewan, the other provinces showing decreased sales. The number of commercial vehicles sold in each province, with figures for February, 1935, in brackets, are as follows: Maritimes, 88 (77); Quebec, 181 (196); Ontario, 542 (625); Manitoba, 62 (74); Saskatchewan, 20 (17); Alberta, 76 (102), and British Columbia, 144 (162).

NEW MOTOR VEHICLE SALES IN CANADA, MAY, 1936

Sales of new motor vehicles in May continued the steady improvement recorded during the first four months of 1936 over the corresponding period last year. There were 19,093 vehicles sold for \$19,273,600 in May, 1936, an increase of 15 per cent in number and 18 per cent in value over May, 1935. May sales receded seasonally, however, from the high level attained in April of this year when 20,658 new motor vehicles were sold for \$20,898,997. Cumulative figures for the first five months of 1936 show sales of 62,307 new motor vehicles for \$63,351,332, an increase of 11 per cent in number and 13 per cent in value over the corresponding period in 1935.

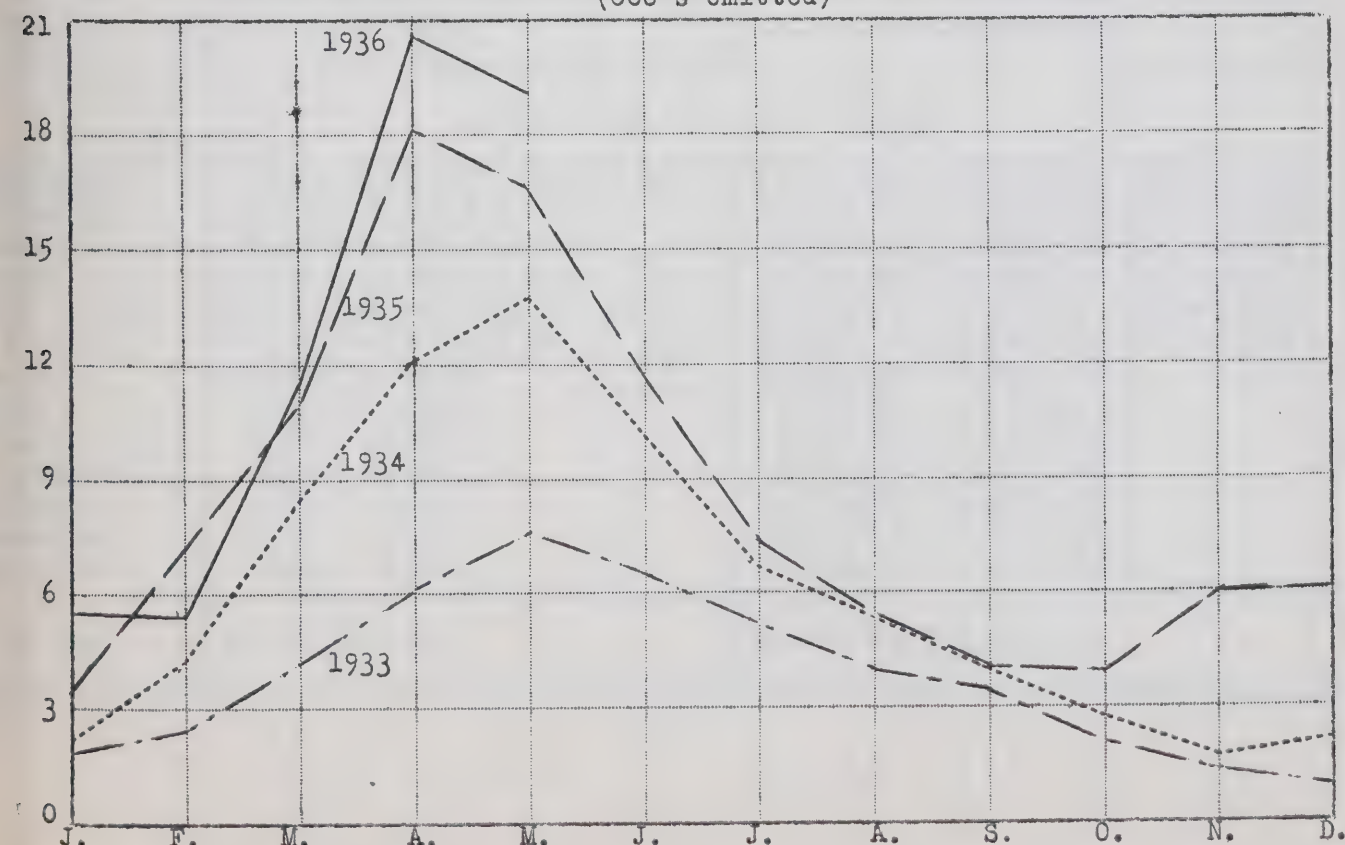

Of the total sales, 15,854 were passenger cars which sold for \$16,105,225. These figures compare with the 13,858 units sold for \$13,495,025 in May, 1935. British Columbia and Saskatchewan were outstanding among the provinces with increases in number of cars sold of 40 and 30 per cent respectively over May last year. Lesser gains were recorded by all other economic divisions with the exception of Manitoba, where sales of passenger cars dropped 6 per cent.

Passenger car sales during the first five months of 1936 numbered 51,598, which is 9 per cent greater than the number sold in the same period of 1935. Quebec, British Columbia and the Maritimes show exceptionally high increases, while Saskatchewan and Alberta are also ahead of last year's figures. However, sales in Ontario and Manitoba are slightly lower than during the same period in 1935.

May sales of trucks and buses were 19 per cent higher in number and 11 per cent higher in value than sales in the corresponding month of last year. There were 3,239 vehicles sold at \$3,168,375 as against 2,717 at \$2,843,865 in May, 1935. Increases are prevalent for all provinces except Manitoba, where no change is recorded. Saskatchewan shows the highest percentage gain, 96.9, while British Columbia and the Maritimes advanced 42 and 32 per cent respectively.

There were 10,709 commercial vehicle sales at \$10,595,278 during the first five months compared with 9,068 at \$9,162,770 for the January to May period in 1935.

NEW MOTOR VEHICLE SALES IN CANADA, JULY, 1936

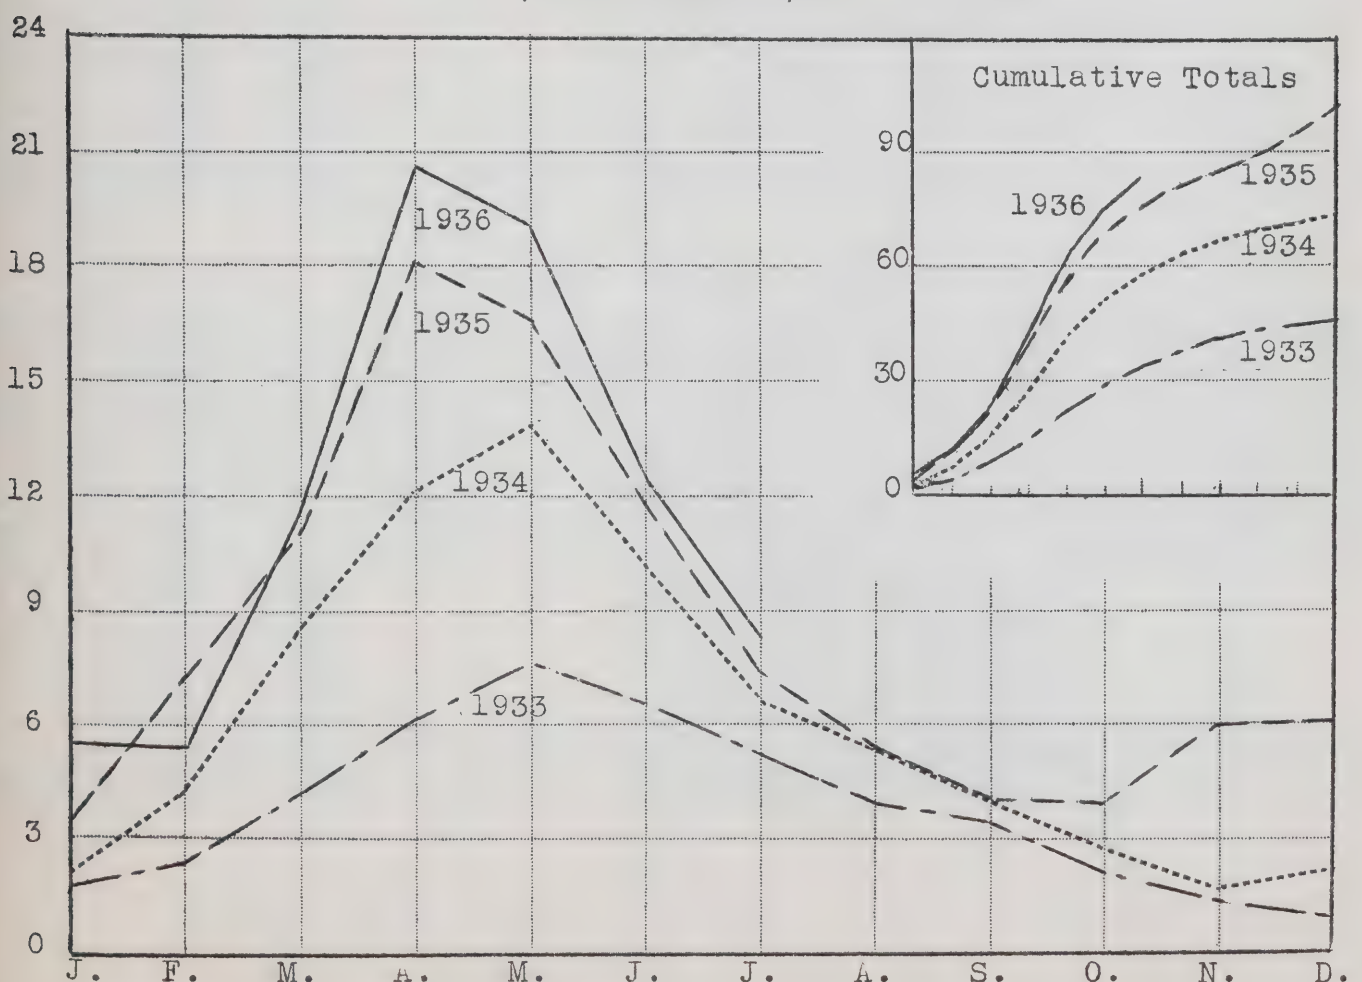

New motor vehicle sales for July, while reflecting the usual seasonal decline from the immediately preceding months, show substantial gains over the corresponding month a year ago. There were 8,238 units sold for \$8,448,360 in July, 1936, increases of 12 per cent and 13 per cent over the 7,384 units which sold for \$7,501,679 a year ago.

Cumulative figures for the first seven months of the year show that 83,081 units sold for \$84,924,591 in 1936, increases of 10 per cent in number and 13 per cent in value over the 75,530 units which sold for \$75,088,275 in the corresponding period in 1935. Percentage increases for July were therefore slightly higher than the average for the seven month period.

New passenger car sales in July numbered 6,592 and the corresponding retail value was \$6,721,562; these figures representing increases of 5 per cent and 7 per cent over corresponding data for last year. In comparison with these Dominion averages, increases in British Columbia were much greater, being 39 per cent in number and 45 per cent in value over last year. Substantial gains were also registered in Quebec, Ontario and Saskatchewan, while declines were recorded in Manitoba, Alberta and the Maritime Provinces.

All sections of the country reported increases in number and value of trucks and buses sold. In comparison with a Dominion average increase of 47.1 per cent in number of commercial vehicles sold, British Columbia reports the smallest gain, 9.2 per cent, while Ontario reports the greatest increase or 76.6 per cent. Altogether, 1,646 new trucks and buses were sold for \$1,726,798 in July, 1936.

NEW MOTOR VEHICLE SALES IN CANADA, SEPTEMBER, 1936.

A sharp rise in sales of passenger cars more than counterbalanced a slight decline in truck and bus sales with the result that total motor vehicle sales in Canada during September showed a 13 per cent gain over September last year. The usual seasonal decline from August is reported by the Bureau. There were 4,551 cars, trucks and buses sold for \$4,841,943 during September as against 4,029 for \$4,304,540 in September, 1935, and 5,894 for \$6,172,045 in August, 1936.

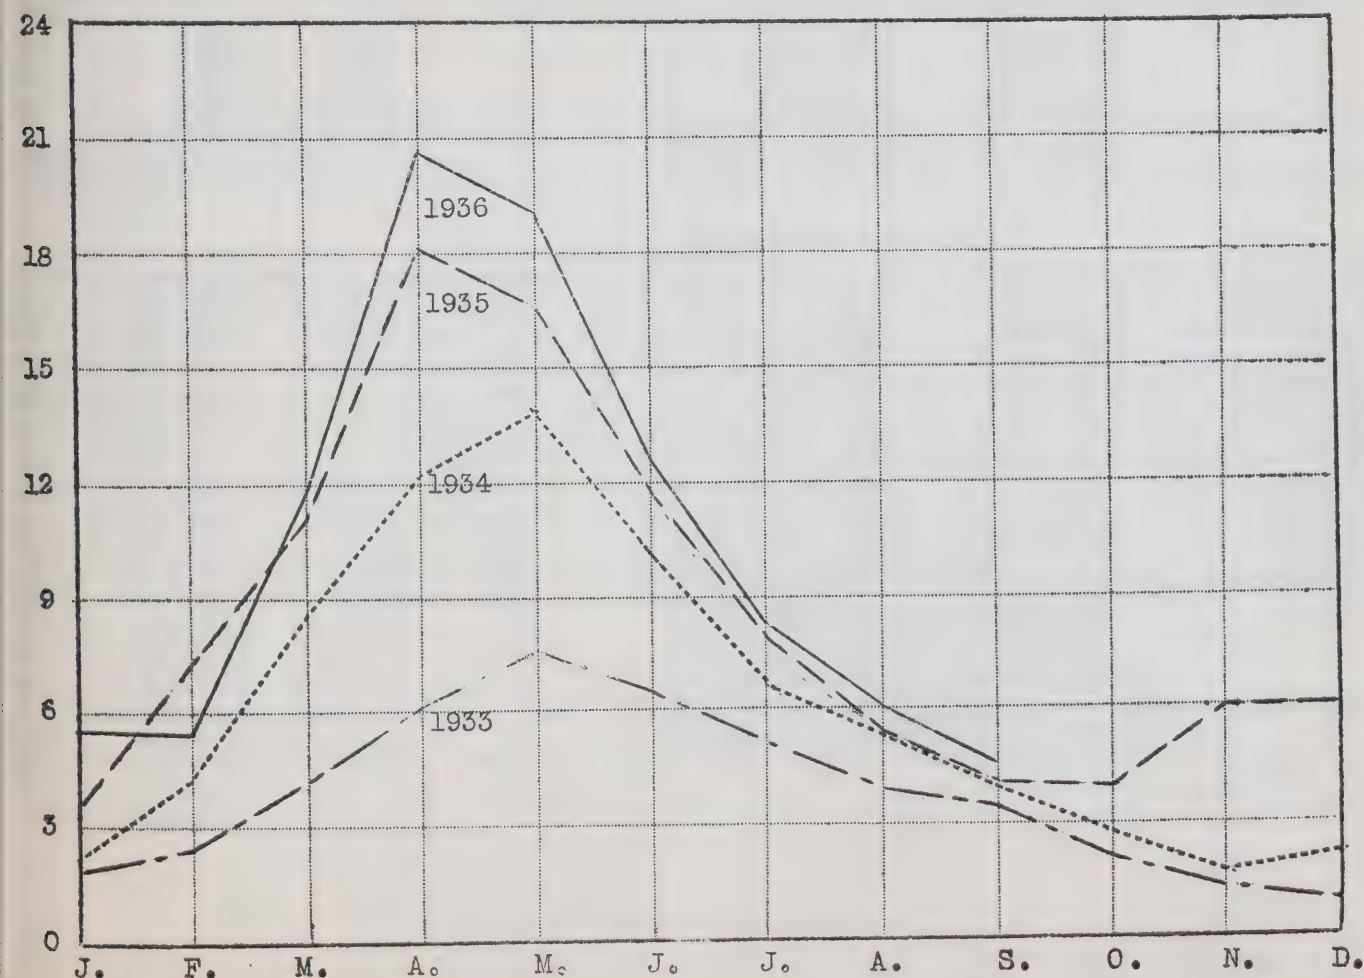

Total vehicles sold in Canada for the first nine months of the year amounted to 93,526, as compared with 85,424 for the corresponding period of time last year, a gain of 9.5 per cent.

New passenger cars sold during September totalled 3,120, a gain of 20 per cent over 2,593 for the same month last year. Retail sales in all provinces except Alberta are up for this month as compared with last year. British Columbia showed a gain of 40 per cent in number of new cars sold, Saskatchewan followed with an increase of 35 per cent, while sales in Manitoba and Quebec were up 29 per cent. Sales in the Maritime Provinces and Ontario increased by 23 per cent and 19 per cent respectively. Figures for Alberta show a decline of 22 per cent in number of new cars sold.

Trucks and buses sold during September numbered 1,431, a decline of 0.3 per cent from last year, when reported sales numbered 1,436. Manitoba showed an improvement of 35 per cent in number of trucks and buses sold. All the provinces in Eastern Canada reported small increases: Ontario, 6 per cent, and the Maritimes and Quebec, 3 per cent. Saskatchewan, Alberta and British Columbia all indicated declines in this field. Alberta sales were down 34 per cent while British Columbia and Saskatchewan showed declines of 10 per cent and 3 per cent respectively.

NEW MOTOR VEHICLE SALES IN CANADA, OCTOBER

There were 4,520 cars, trucks and buses sold for \$4,929,567 in Canada during October of this year compared with 3,936 which sold for \$4,222,337 in October, 1935, and 4,551 for \$4,841,943 in September, 1936. The number of vehicles sold in October, 1936, registered an increase of 15 per cent over the corresponding month last year and the decline from September - about one per cent - was less than seasonal.

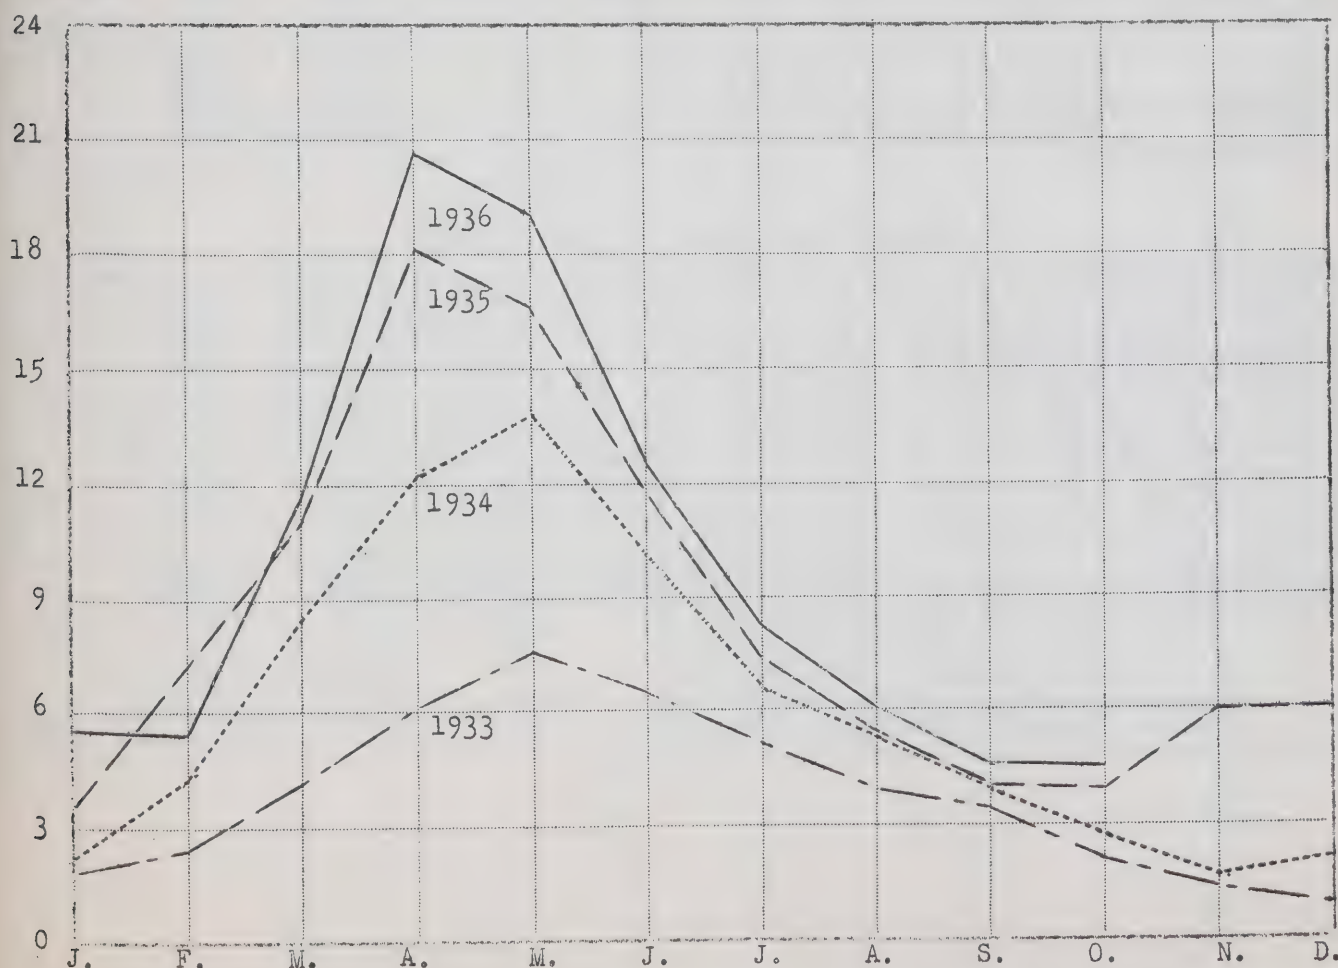

The 1936 ten-month total of cars, trucks and buses was 98,046, as against 89,360 for the corresponding period last year, a gain of 9.7 per cent.

Clearance of 1936 models, in anticipation of the early introduction of new models, resulted in an increase over September in the passenger car market for the second year in succession. New passenger cars sold in Canada totalled 3,441, a gain of 10 per cent over September and an increase of 16½ per cent over October last year. The increase over September was noted in all provinces with the single exception of British Columbia, where sales declined about 2 per cent. Improvement over October last year, evident in all provinces except Alberta, ranged from 56 per cent for Manitoba to 2 per cent for British Columbia.

Commercial vehicle sales fell below the September level. There were 1,079 trucks and buses disposed of for \$1,144,329 during October. The gain over October of last year was 10 per cent in number and 18 per cent in retail value. In this field, Alberta is the only province to show a decline from last year. Gains in the other provinces ranged from 40 per cent for Saskatchewan to 7 per cent for British Columbia.

NEW MOTOR VEHICLE SALES IN CANADA, NOVEMBER, 1936

A small increase in passenger car sales accompanied by a sharp decline in truck and bus sales resulted in a drop of 0.4 per cent in total motor vehicle sales for November as compared with November, 1935. There were 5,991 motor vehicles sold during November this year, of which 5,373 were passenger cars and 618 were trucks and buses. Last November 6,015 motor vehicles were sold including 5,201 cars and 814 trucks and buses. The increase over October this year for all vehicles was 33 per cent while last year November showed a gain over October of 53 per cent.

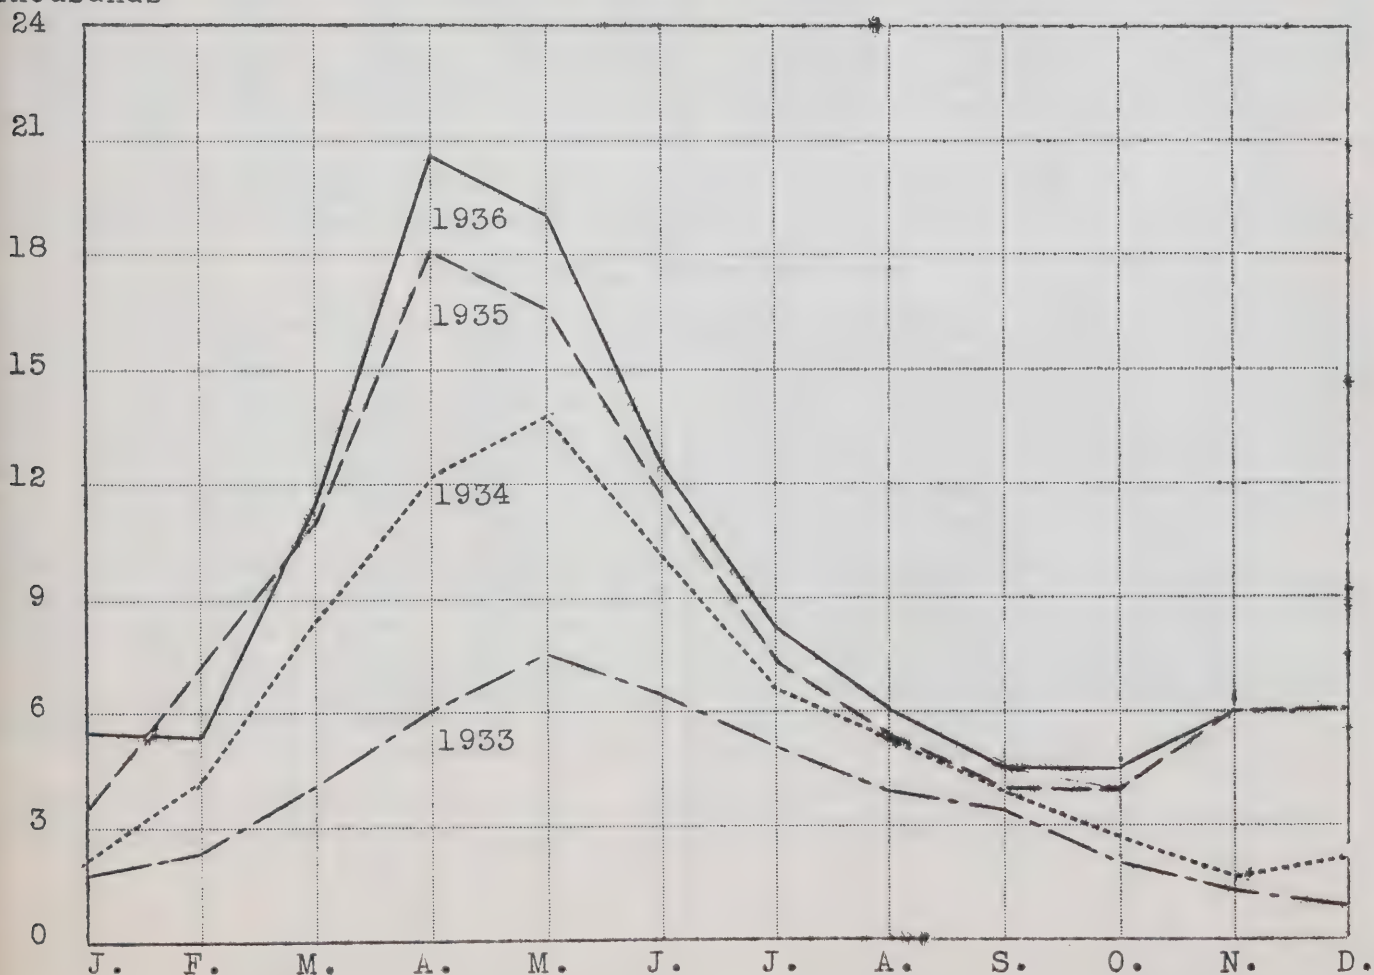

During the eleven-month period, January to November, 1936, 104,037 cars, trucks and buses retailed at \$107,316,480, a gain of 9 per cent in number and 12 per cent in retail value over the corresponding period of 1935.

While total passenger car sales in Canada rose 3 per cent in November compared with the same month last year, interesting variation is shown for the different provinces. Saskatchewan sales rose 52 per cent, Quebec sales were up 21 per cent, British Columbia sales increased 15 per cent, and Manitoba sales advanced 7 per cent. Ontario sales decreased by less than 1 per cent; the Maritimes, 19 per cent; and Alberta, 22 per cent.

While truck and bus sales show a decline of 24 per cent for Canada as a whole, Manitoba and Saskatchewan both reported good percentage increases. The Maritime Provinces, Quebec, Ontario, Alberta and British Columbia all show declines ranging all the way from 69 per cent to 9 per cent.

NEW MOTOR VEHICLE SALES IN CANADA, DECEMBER, 1936

The slight reduction in the number of new motor vehicles sold in Canada during November, 1936, as compared with the corresponding month of 1935 was far more than offset in December when sales rose to a level unprecedented in the Bureau's records for that month. There were 10,604 new vehicles sold for \$10,921,905 during December, compared with 5,991 for \$6,448,334 in November. The 1935 totals were 6,086 vehicles valued at \$6,044,878 for December and 6,015 vehicles valued at \$6,128,612 for November. The percentage gains over 1935, 74 per cent in number of vehicles and 81 per cent in value, were higher for December than for any other month of 1936.

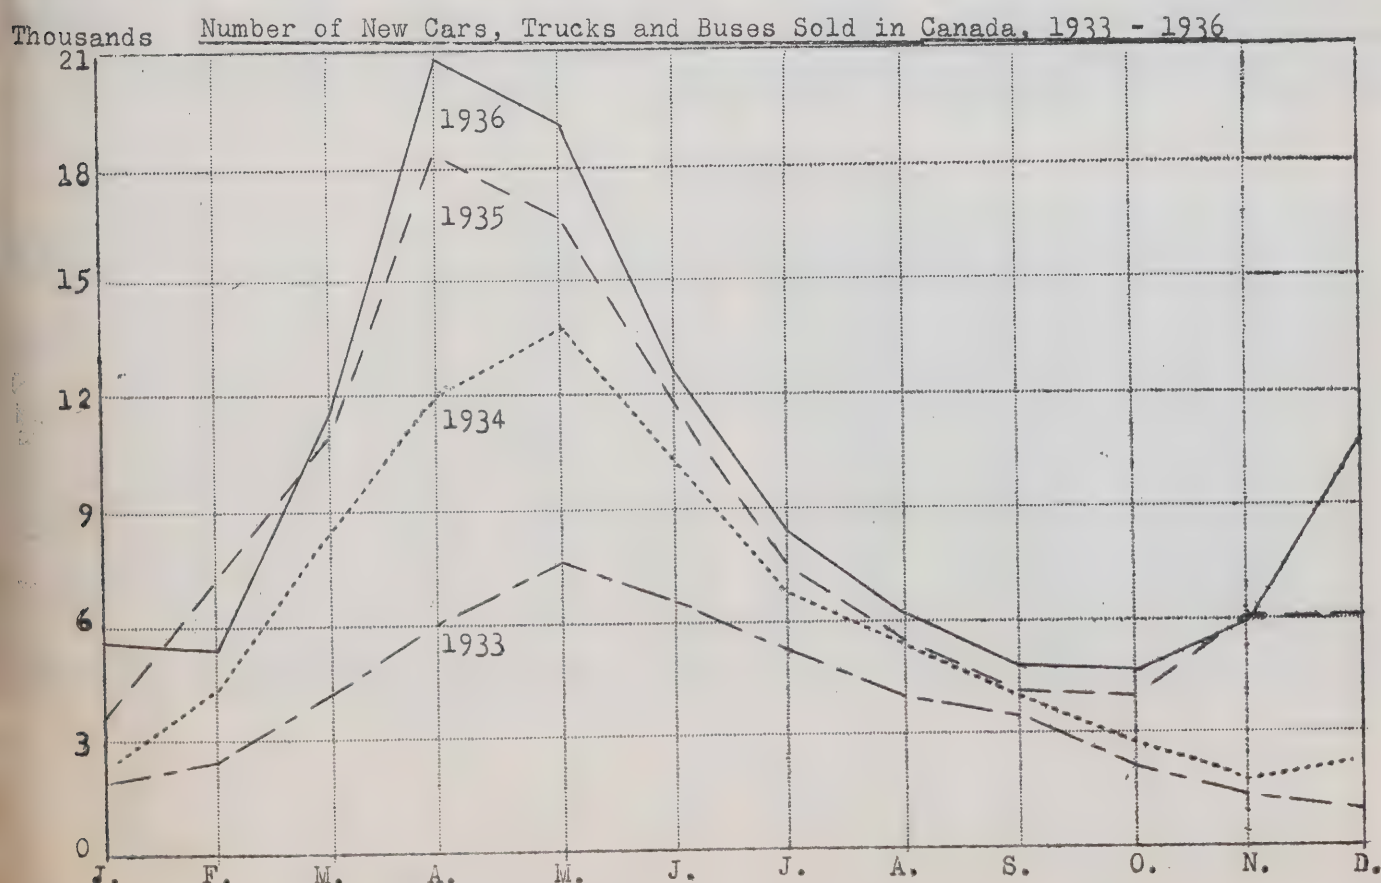

Passenger car sales figures showed outstanding gains over 1935, while those for trucks and buses recorded moderate advances. There were 9,583 new passenger cars sold during December, 1936, compared with 5,244 for December, 1935, and 1,649 for December, 1934. New trucks and buses sold during December, 1936, numbered 1,021 compared with 842 for the same month of 1935 and 533 for December, 1934.

While the percentage gain in passenger car sales over December, 1935, was 83 per cent for Canada as a whole, it is noted that the percentage increases for Manitoba, Ontario and Saskatchewan were above the average, being 150 per cent, 100 per cent, and 99 per cent respectively. Alberta, British Columbia and Quebec showed substantial increases and the only decline in sales occurred in the Maritime Provinces. Of the 9,583 new cars sold, 6,140 or 64 per cent were purchased in Ontario and 1,376 or 13 per cent in Quebec.

Truck and bus sales increased over December, 1935, by 21 per cent for the Dominion as a whole. Ontario reported a gain of 54 per cent; Saskatchewan, 22 per cent; Quebec, 10 per cent; and Manitoba, 2 per cent. The Maritimes, Alberta and British Columbia all showed declines.

The preliminary totals for the calendar year 1936 show that 114,641 new motor vehicles retailed at \$118,238,385. These figures register improvement of 13 per cent in number and 16 per cent in value over the 101,461 sold for \$101,742,449 during the year 1935.

Note: All 1936 data are preliminary and revised figures will be shown in an annual report which will be published shortly.

NEW MOTOR VEHICLE SALES IN CANADA, JANUARY, 1937

The marked advance in new motor vehicle sales recorded in December, 1936, was continued in the first month of the current year when 10,199 vehicles sold for \$10,486,413. These figures reflect increases of no less than 82 per cent in number and 83 per cent in value over the 5,616 cars, trucks and buses which sold for \$5,726,696 in January, 1936. Of the total number of units sold in January, 1937, 84 per cent were passenger cars and 16 per cent were commercial vehicles.

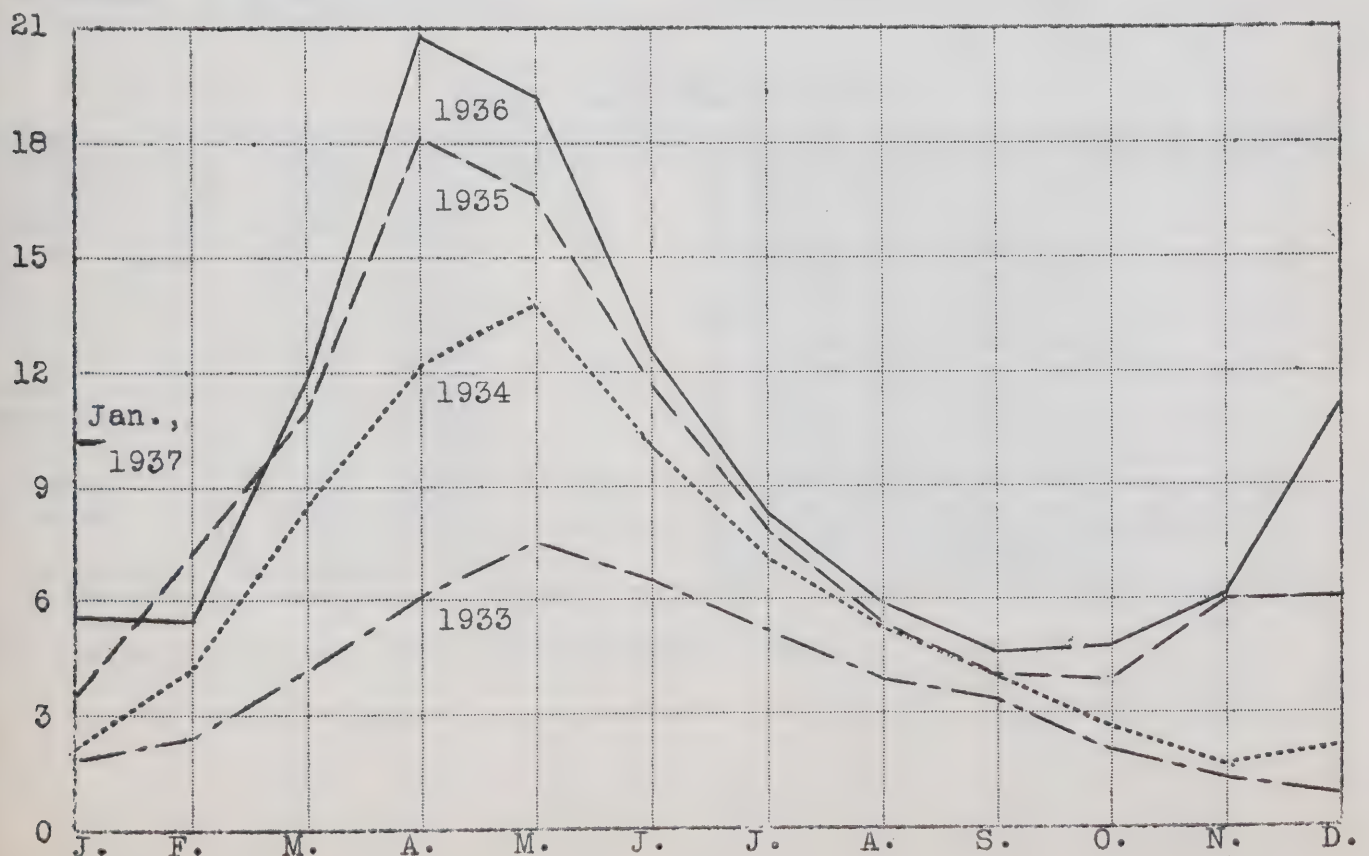

Sales of 8,522 new passenger cars were valued at \$8,731,222; gains of 80 per cent in number and 81 per cent in value were recorded over the 4,747 units which retailed at \$4,831,962 in January, 1936. Quebec and Ontario led all other provinces in increased passenger car sales, with gains of 96 and 87 per cent respectively over sales in January of last year. Increases recorded by the remaining provinces were as follows: Saskatchewan, 76 per cent; Maritimes, 67 per cent; Manitoba, 65 per cent; British Columbia, 53 per cent, and Alberta, 34 per cent.

A remarkable feature of the January business was the amazing increase of 93 per cent in sales of trucks and buses over the same month of 1936. Sales in Quebec and in Ontario showed the greatest improvement in this field also, although substantial gains were recorded by all other provinces with the exceptions of Alberta and British Columbia.

This report contains revised figures for all months of 1936 which will be found to differ slightly from figures mentioned in previous reports.

NEW MOTOR VEHICLE SALES IN CANADA, FEBRUARY, 1937

The upward trend of new motor vehicle sales in Canada was continued throughout February, when 10,866 units were sold. This figure was not only $6\frac{1}{2}$ per cent in advance of January but nearly doubled the February, 1936, total of 5,473 vehicles.

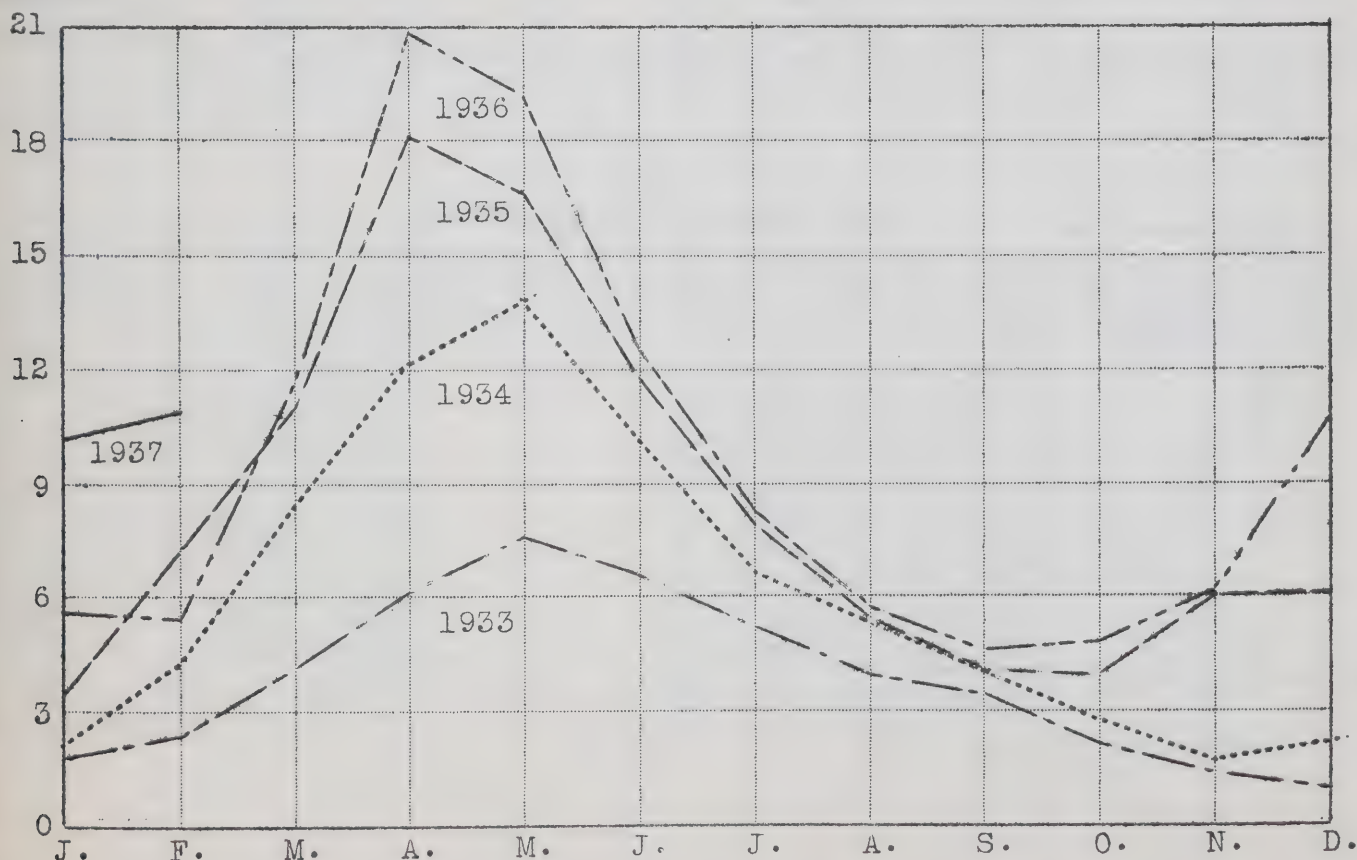

During the first two months of 1937, 21,065 new motor vehicles were sold for \$21,374,564, reflecting increases of 90.0 per cent in number and 87.3 per cent in value as compared with the same period last year when 11,089 units retailed at \$11,409,390.

Approximately 81 per cent of the total units sold during February were passenger cars. These numbered 8,801, a gain of 279 units or 3.3 per cent over the previous month and an increase of 4,490 units or 104.2 per cent as compared with February, 1936. This pronounced increase is due in part to the unusually mild weather prevailing throughout Eastern Canada during February. Passenger car sales increased 159.9 per cent in the Maritime Provinces, 123.0 per cent in Quebec, and 114.1 per cent in Ontario. The province of Saskatchewan reported a gain of 181.4 per cent; Manitoba, 115.1 per cent; Alberta, 108.6 per cent, while sales in British Columbia increased only 5.6 per cent.

Commercial vehicles sold during February totalled 2,065, representing approximately 19 per cent of all vehicles sold. There was a gain in number of 23.1 per cent as compared with January and an increase of 77.7 per cent over February last year. As compared with the latter figure obtaining for the Dominion as a whole, the various provinces showed increases over February, 1936, ranging from 31.8 per cent for Manitoba to 135.2 per cent for the Maritime Provinces. British Columbia recorded improvement of 42.8 per cent; Alberta, 51.2 per cent; Ontario, 68.8 per cent; Saskatchewan, 125.0 per cent, and Quebec, 128.0 per cent.

NEW MOTOR VEHICLE SALES IN CANADA, APRIL, 1937

Retail sales of new motor vehicles during April showed less than the usual seasonal increase over March and there was a decline of 4.5 per cent as compared with April last year. This is the first year in which April registered a decline compared with the same month in the previous year since the inception of these statistics in 1932. There were 19,909 new vehicles sold for \$19,950,115 during April this year compared with 16,302 at \$16,421,816 for March and 20,845 at \$21,161,190 for April, 1936.

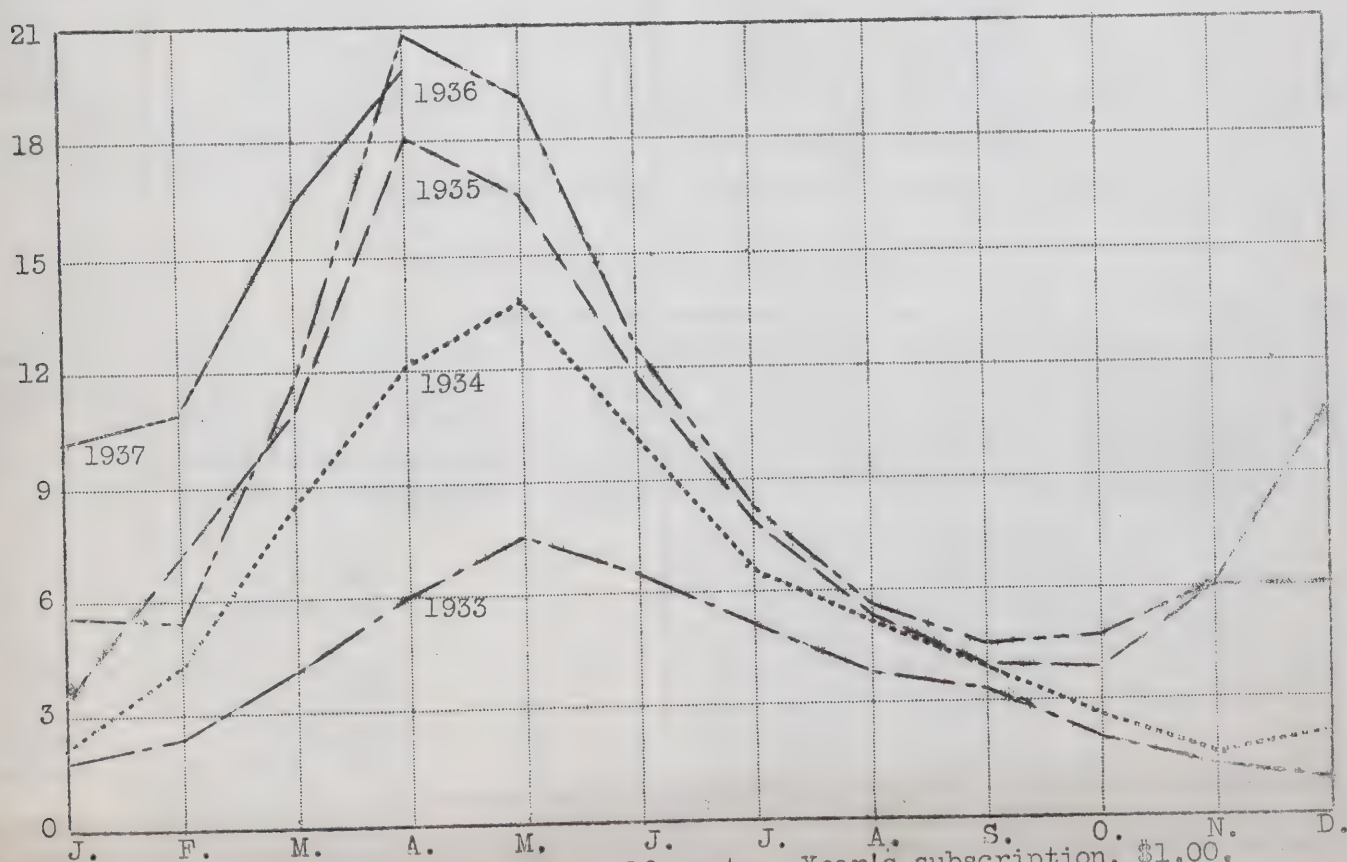

Despite the shrinkage in volume of sales during April, cumulative totals for the first four months of 1937 still showed considerable increases over the corresponding period last year. This year 57,276 new vehicles retailed at \$57,746,495 as against 43,630 at \$44,712,953 a year ago, a gain of 31.3 per cent in number and 29.1 per cent in amount.

Passenger car sales for April totalled 16,070, a decline of 7.5 per cent from last year. Compared with this drop for the Dominion as a whole, a mixed trend was shown by the various provinces with advances noted generally in the western and declines in the eastern divisions. Saskatchewan sales figures increased 101.2 per cent over last year, Manitoba sales rose 30.4 per cent, while the total for British Columbia advanced only 0.7 per cent. Alberta figures showed a decline of 3.8 per cent, while the Maritime Provinces, Quebec and Ontario registered decreases of 8.2 per cent, 28.5 per cent and 8.9 per cent respectively in number of new cars sold.

Advances over April last year of 10.8 per cent in number and 11.9 per cent in amount were recorded in the commercial vehicle field for April. There were 3,839 trucks and buses sold for \$3,811,698 during April, compared with totals of 3,465 at \$3,404,878 a year ago. Ontario was the only province to show a decline in number of trucks and buses sold, the drop being 12.0 per cent. Alberta sales increased 3.0 per cent; Quebec, 13.1 per cent; the Maritime Provinces, 24.6 per cent; Manitoba, 30.7 per cent; British Columbia, 32.1 per cent, and Saskatchewan, 128.9 per cent.

NEW MOTOR VEHICLE SALES IN CANADA, JUNE, 1937

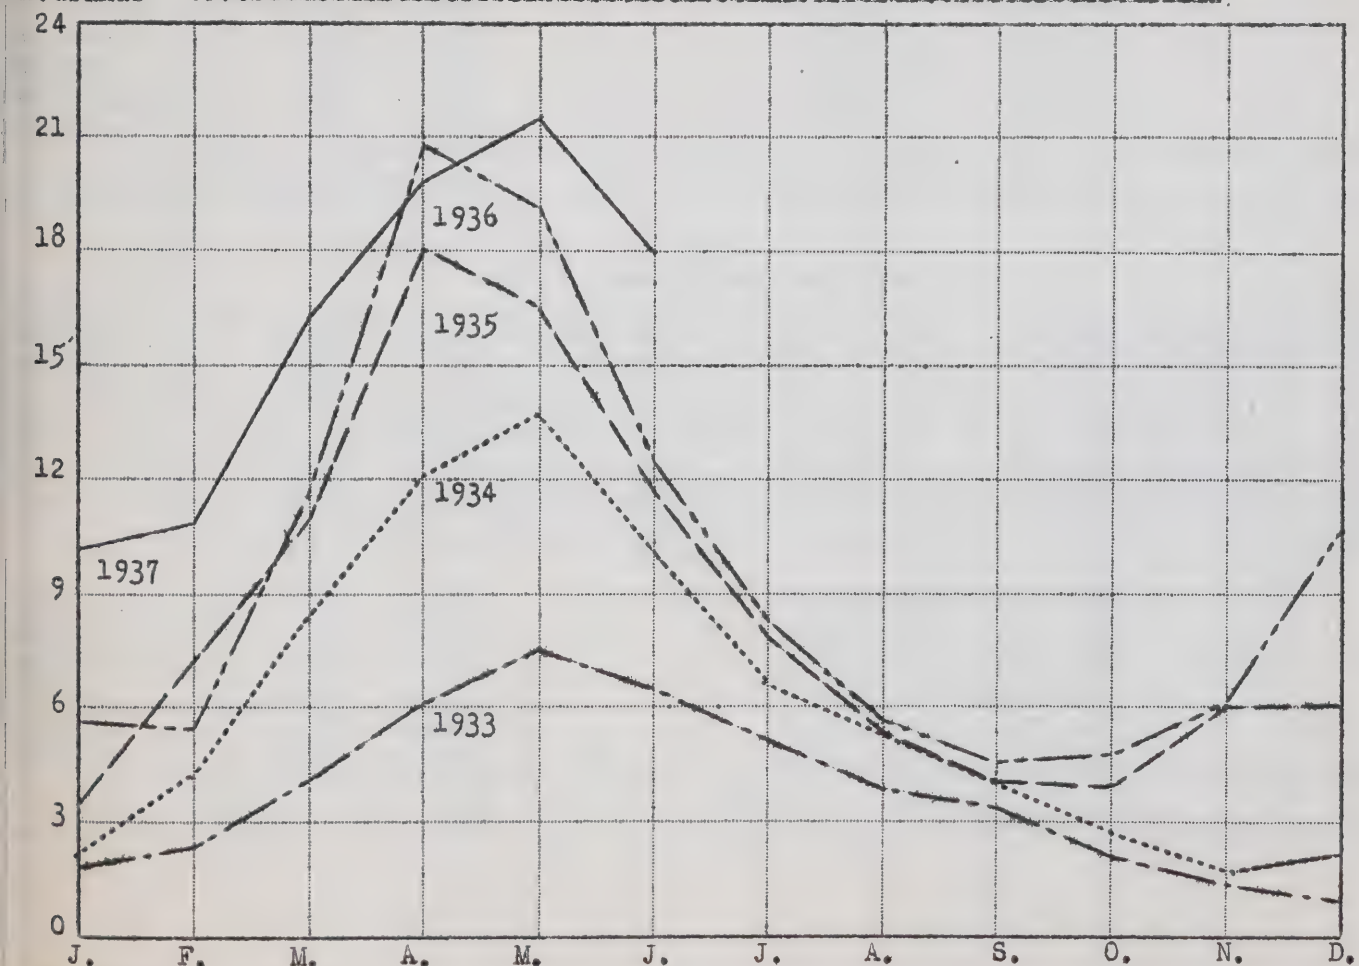

New motor vehicle sales in Canada, after declining slightly during April as compared with a year ago and making small gains during May, moved up sharply during June to show advances over June, 1936, of 43.3 per cent in number and 37.2 per cent in retail value. The decline from May of this year was less than seasonal. There were 17,949 new vehicles sold for \$18,064,055 during June as compared with 12,523 at \$13,167,624 for June, 1936, and 21,531 for \$21,980,324 during May, 1937.

Cumulative figures for the first half of 1937 totalled 96,756 vehicles at \$97,790,874 as against 75,380 at \$77,374,713 for 1936, an increase of 28.4 per cent in number and 26.4 per cent in amount. Of the 96,756 vehicles sold this year, 78,352 were passenger cars which retailed at \$78,970,472 and 18,404 were trucks and buses which sold for \$18,820,402.

During June, 14,382 new passenger cars were sold in Canada for \$14,325,406, showing gains of 43.7 per cent in number and 39.1 per cent in amount compared with June, 1936. The best improvement in sales was noted in the Maritime Provinces where a 77.2 per cent advance over last June was recorded. Manitoba sales increased 59.5 per cent while those for all other provinces showed large gains.

Commercial vehicles sold during June numbered 3,567 and these retailed at \$3,738,649, an improvement over June, 1936, of 41.8 per cent in number and 30.2 per cent in amount. The province of Quebec showed the largest percentage gain over last year in sales of trucks and buses, the increase in number being 72.0 per cent.

These figures are based on reports submitted by twenty-one manufacturing companies which report actual dealers' deliveries to consumers each month. The retail value is calculated from the price paid by an individual purchaser at Canadian point of manufacture and includes sales and excise taxes, charges for standard accessories, dealer's commission, etc. Freight charges from factory to place of purchase are excluded. In the case of imported vehicles, the value is based on the retail price at the nearest Canadian distributing point and duty is included.

NEW MOTOR VEHICLE SALES IN CANADA, JULY, 1937

Gains over July, 1936, of 41.2 per cent in number and 59.4 per cent in value are shown in the report on retail sales of new motor vehicles in Canada for July. There were 11,701 new vehicles sold during the month and these retailed at \$11,878,390 compared with 8,286 at \$8,518,599 for the same month last year.

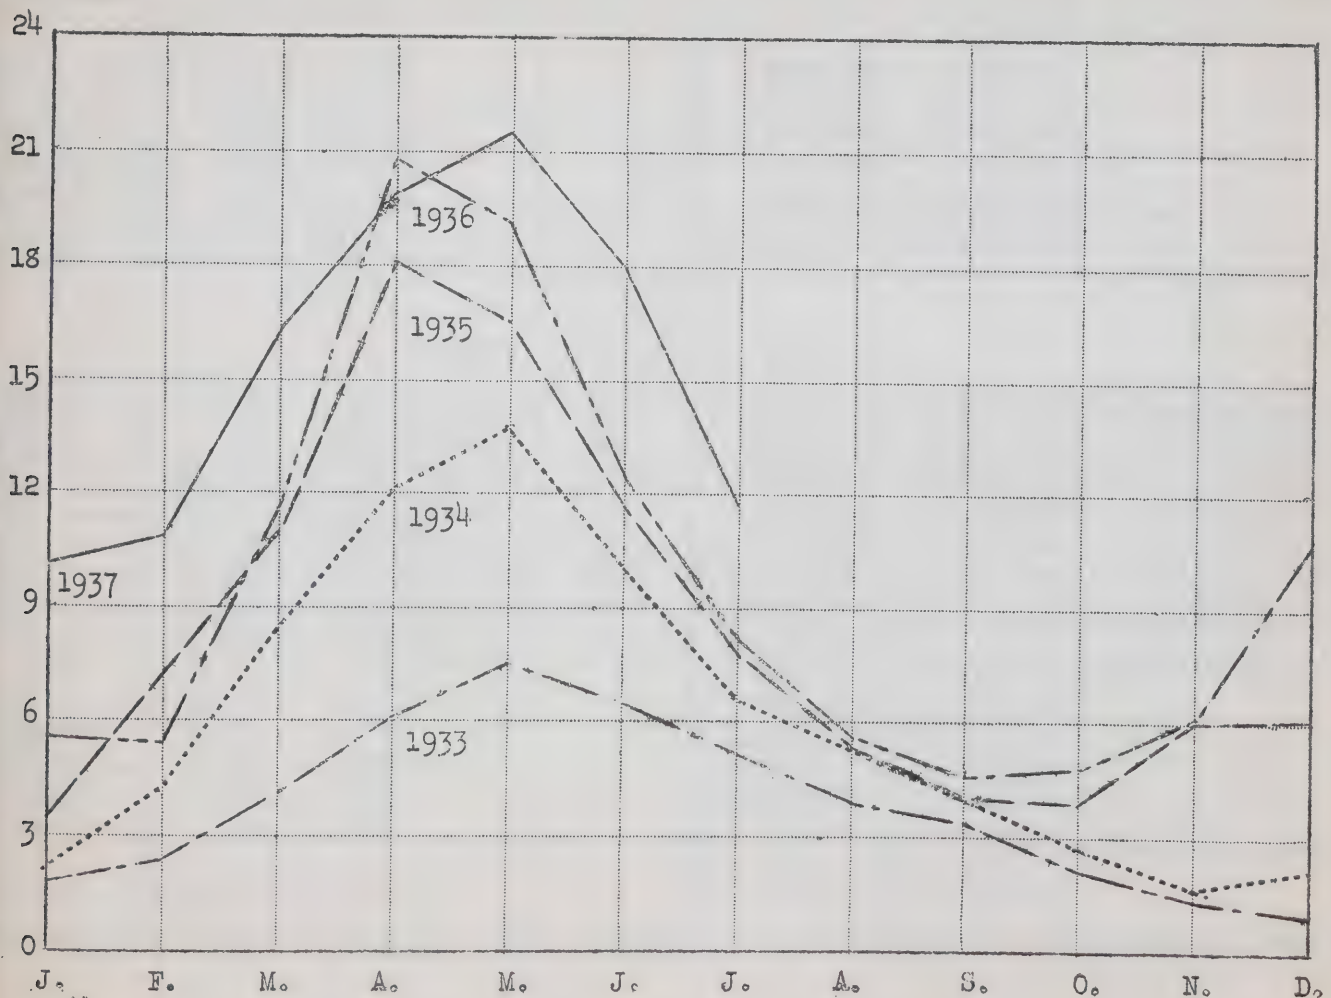

The number of new motor vehicles sold during the first seven months of 1937 is not only 29.6 per cent greater than the corresponding total for 1936, but it exceeds the number sold during the entire year 1935. A total of 108,457 new vehicles were sold for \$109,669,264 during the first seven months of 1937 and 83,666 vehicles retailed at \$85,893,312 during the same period of 1936, while the totals for the calendar year 1935 were 101,461 vehicles at \$101,742,449.

All provinces reported increased sales of passenger cars compared with last July. For Canada as a whole, the total was 8,643 cars, a gain of 31.0 per cent over July, 1936. The Maritime Provinces with a percentage gain of 75.5 reported the largest advance. The other provinces registered increases ranging from 9.0 per cent for Saskatchewan to 57.8 per cent for Manitoba.

July sales of new trucks and buses advanced 80.9 per cent over last year. This increase is the largest recorded for any one month of 1937, with the single exception of January when the gain over January, 1936, was 93.0 per cent. The number of commercial vehicles disposed of during the month under review was 3,058 compared with 1,690 for July last year. The province of Quebec reported the best increase, 120.2 per cent, and British Columbia sales advanced 86.8 per cent. Ontario, Manitoba and the Maritime Provinces also reported very large gains over July, 1936, while moderate advances were shown for Saskatchewan and Alberta.

The number of new motor vehicles sold in Canada during September, 1937, was 6,140, an increase of 9.8 per cent over the 5,592 units disposed of during September, 1936. Corresponding retail values, \$6,613,587 and \$5,964,496 for September, 1937, and September, 1936, respectively, reflect a 10.9 per cent advance this year.

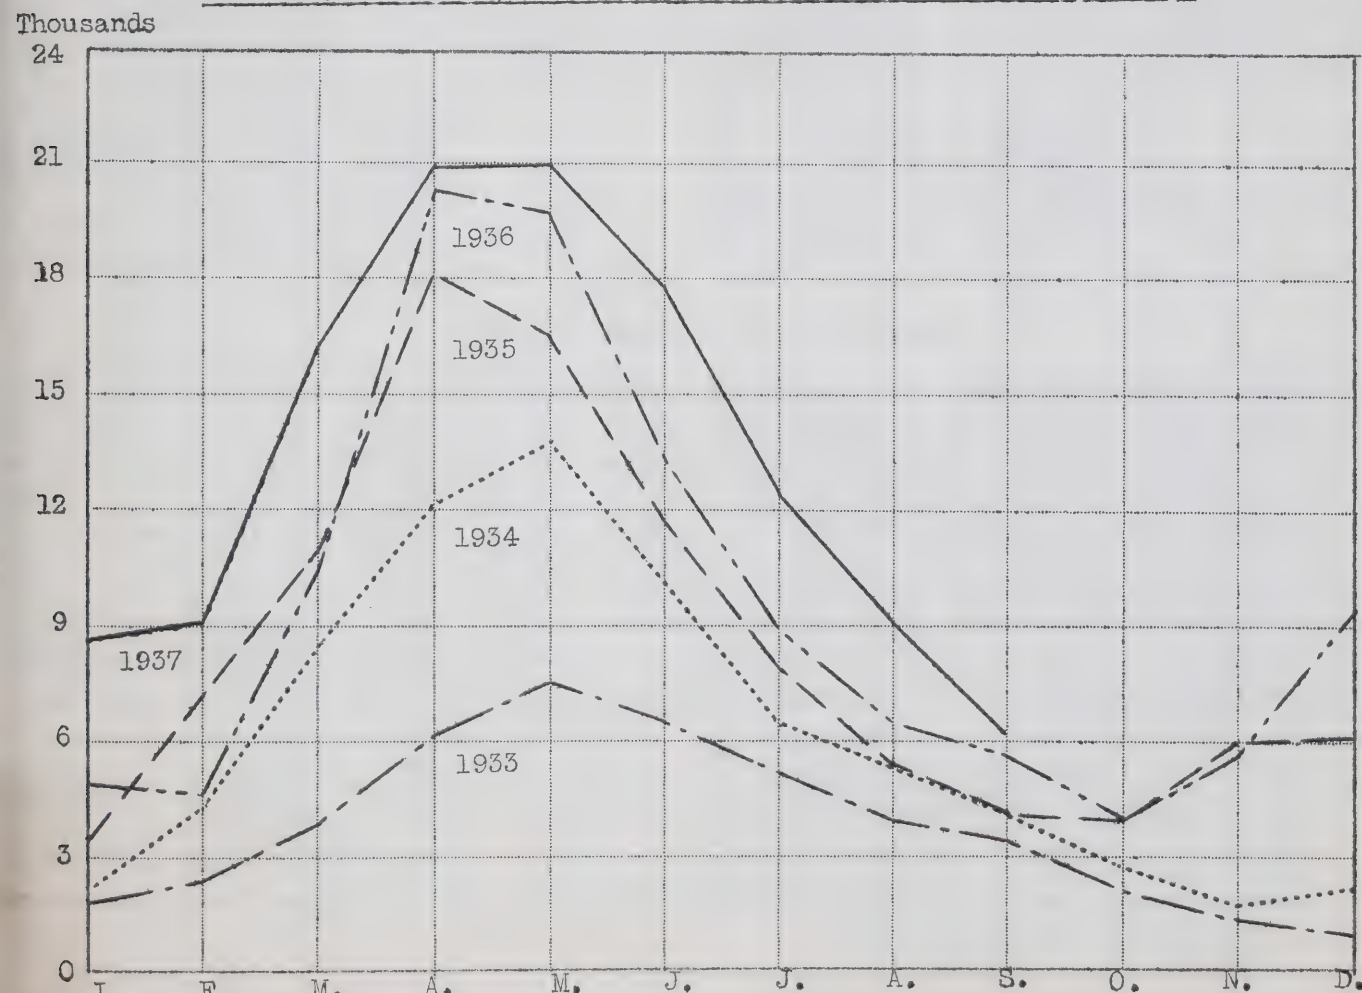

Total new motor vehicle sales for the first nine months of 1937 were 121,729 compared with 94,313 for the same period of 1936, an increase of 29.1 per cent.

Passenger car sales for Canada as a whole declined slightly during September compared with a year ago. This year, 3,920 new cars retailed at \$4,128,077 during the month under review while figures for September, 1936, show that 4,008 new cars sold for \$4,320,207. Gains in number over last September were shown by the following provinces: Alberta, 52.1 per cent; Manitoba, 29.1 per cent; British Columbia, 13.5 per cent; the Maritime Provinces, 9.8 per cent, and Quebec, 2.7 per cent. Declines occurred in passenger car sales in Saskatchewan and Ontario.

Truck and bus sales, on the other hand, advanced 40.2 per cent in number and 51.2 per cent in value for the Dominion as a whole compared with last September. There were 2,220 new trucks and buses sold for \$2,485,510 during September compared with 1,584 at \$1,644,289 for the same month a year ago. Substantial percentage increases were shown for Alberta, Manitoba, Quebec, Ontario and British Columbia, while decreased sales were reported in the Maritime Provinces and Saskatchewan.

Figures for 1936 and 1937 given in this report have been altered from those previously published to allow for revisions in data submitted to the Bureau. Revised cumulative figures by provinces for 1936 and 1937 are not yet available.

NEW MOTOR VEHICLE SALES IN CANADA, OCTOBER, 1937

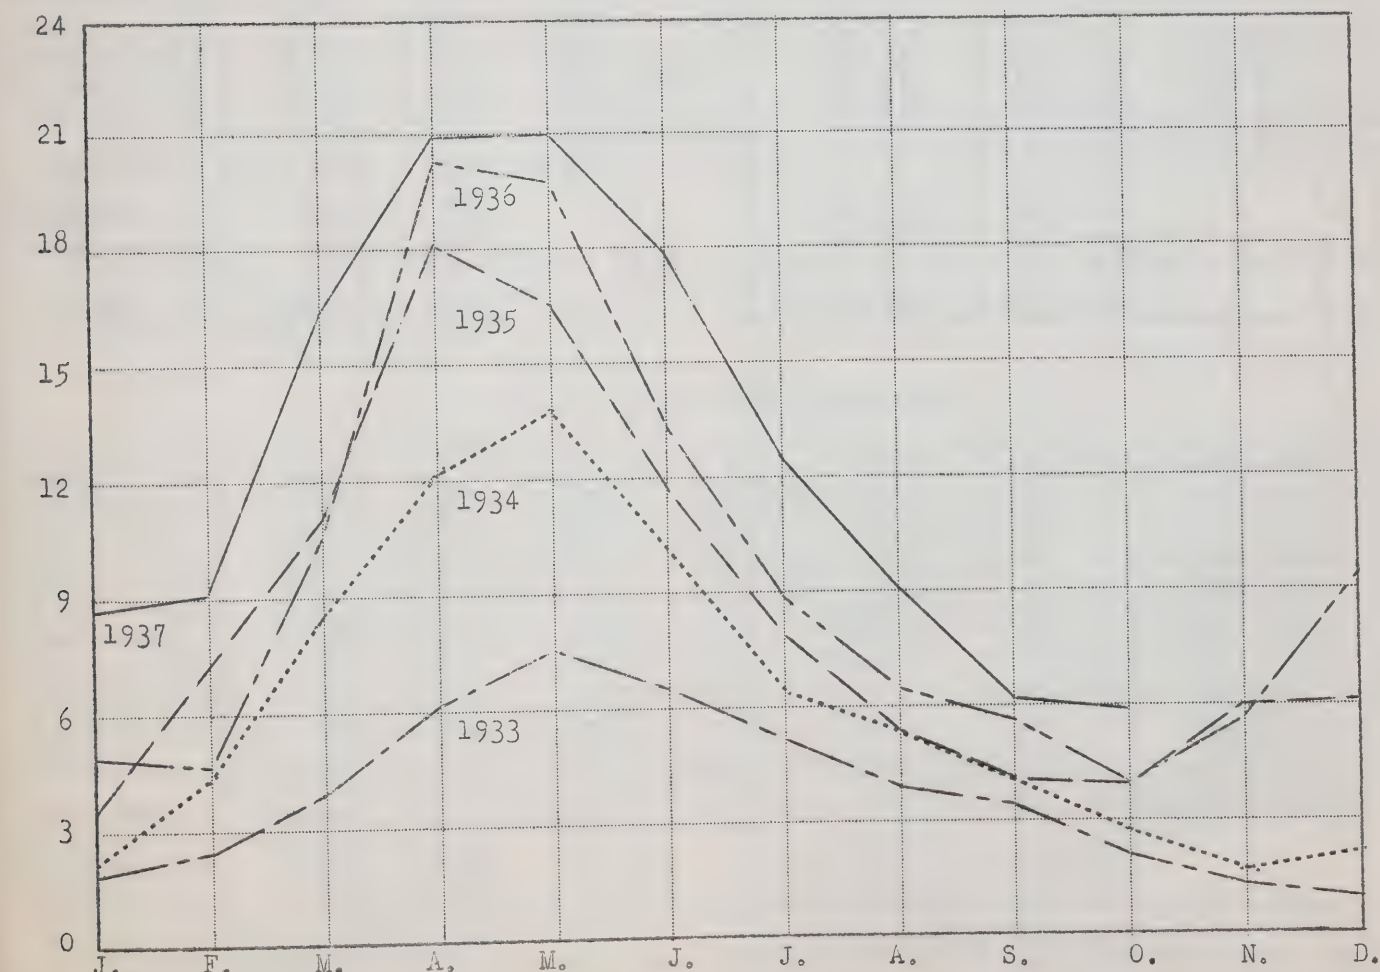

The marked increase in new motor vehicle sales in Canada which has characterized the corresponding-month comparisons for 1936 and 1937 but which declined in September compared with earlier months was resumed in October when 5,847 new vehicles sold for \$6,552,-261. The increase over October, 1936, when 4,021 vehicles retailed at \$4,590,475, was 45.4 per cent in number and 42.7 per cent in value. Total sales of new motor vehicles for the first ten months of 1937 were 127,576, a gain of 29.7 per cent over the 98,334 vehicles sold in the same period of 1936.

Passenger car sales accounted for the bulk of the increase, 4,356 cars being sold for \$4,730,961, an advance of 54.2 per cent in number and 47.5 per cent in value over the 2,825 cars which sold for \$3,207,900 in October, 1936. NEW MOTOR VEHICLE SALES IN CANADA, NOVEMBER, 1937

Impetus to sales occasioned by the fall showing of 1938 models resulted in a sharp upward swing in new motor vehicle sales during November, when 8,152 vehicles sold for \$8,989,170 compared with 5,847 at \$6,552,261 for October. A comparison with November 1936 totals of 5,605 vehicles at \$6,101,154 reveals advances of 45.4 per cent in number and 47.3 per cent in amount.

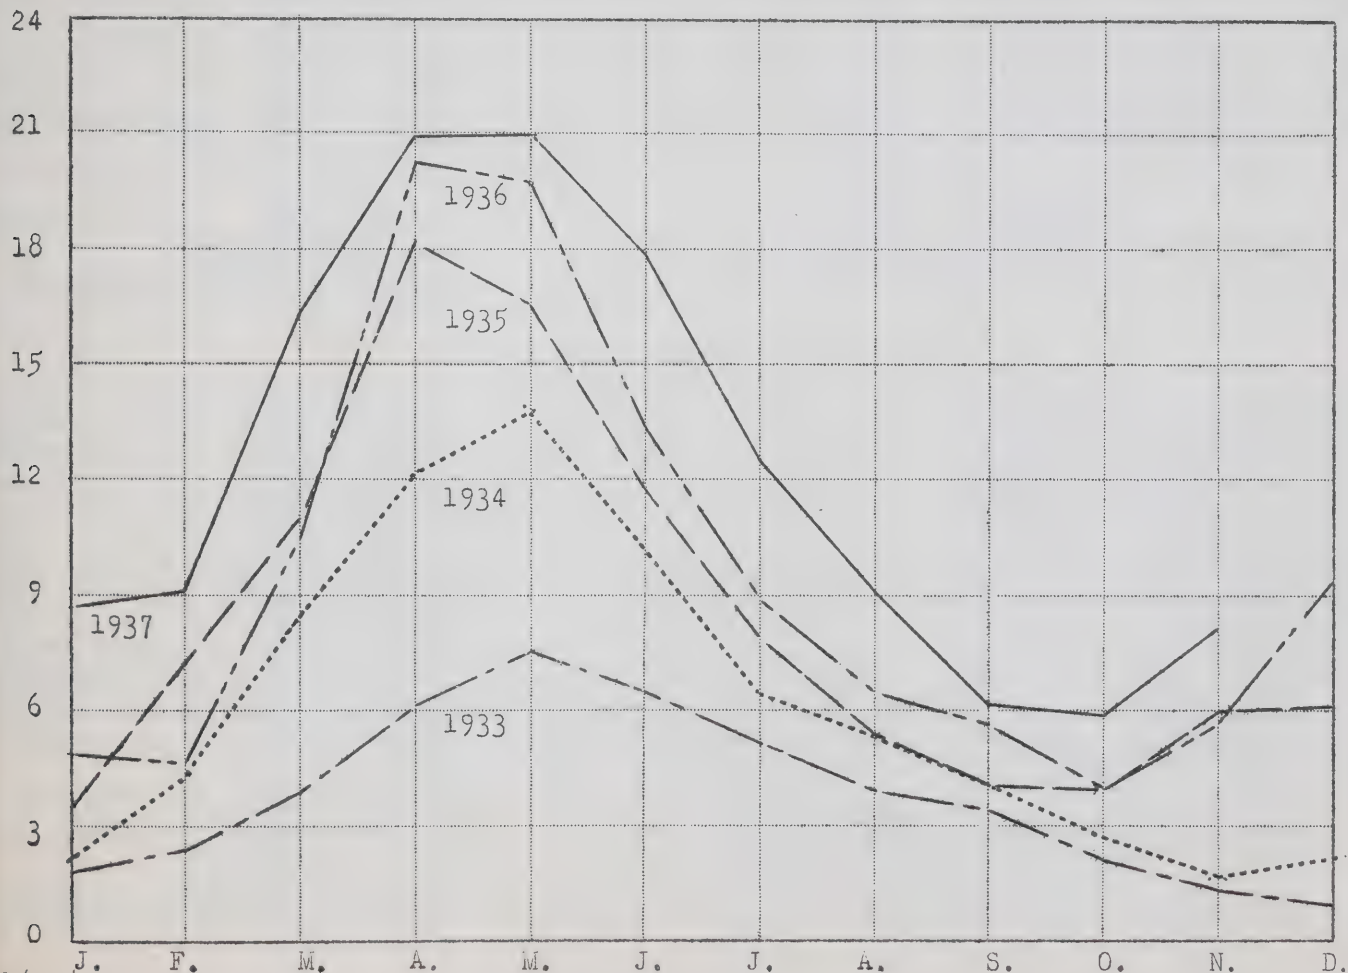

During the first eleven months of 1937, 135,728 vehicles sold for \$139,443,045, an improvement of 30.6 per cent in number and 29.2 per cent in amount over the same period of 1936, when 103,939 vehicles retailed at \$107,922,431.

Passenger car sales during November totalled 6,851 for Canada, a gain of 40.4 per cent over last year's total of 4,881. Provincial distribution of the 6,851 cars was as follows: Ontario, 3,602 or 52.6 per cent; Quebec, 1,513 or 22.1 per cent; British Columbia, 464 or 6.8 per cent; Alberta, 414 or 6.0 per cent; Maritime Provinces, 383 or 5.6 per cent; Manitoba, 346 or 5.0 per cent, and Saskatchewan, 129 or 1.9 per cent. Saskatchewan was the only province to show a decline from last November. The best percentage gain, 67.7, was recorded for Quebec. Improvement of 62.3 per cent was noted for the Maritime Provinces, while Alberta sales increased 59.2 per cent. Manitoba figures were 51.1 per cent in advance of last year; Ontario, 38.9 per cent, and British Columbia, 13.2 per cent.

Contrasted with the gain in new car sales, retail deliveries of trucks and buses declined slightly compared with October. However, the gain over last November of 79.7 per cent was outstanding. A total of 1,301 new trucks and buses were sold compared with 1,491 for October, 1937, and 724 for November a year ago. Saskatchewan was again the only province which showed a decline. Ontario purchased 553 or 42.5 per cent of the total commercial vehicles sold during November, and showed improvement of 80.7 per cent over last year's sales. Quebec accounted for 296 or 22.8 per cent of the total and the increase over November, 1936, of 136.8 per cent was the largest recorded by any province.
